

Tracking Type Automatic Filling And Capping Machine 2000BPH

Our Product Introduction

for more products please visit us on tom-packs.com

Basic Information

- Place of Origin: China
- Brand Name: TOM
- Certification: CE/ISO9001
- Model Number: FXZ-2G
- Minimum Order Quantity: 1 set
- Price: Negotiable
- Packaging Details: Sea Worthy Packing
- Delivery Time: 30 Working Days
- Payment Terms: L/C, T/T
- Supply Ability: 25 sets per month

Product Specification

- Automatic Grade: Automatic
- Type: Capping Machine
- Driven Type: Servo Motor
- Warranty: 1 Year
- Capping Speed: 2000 Caps/Hour
- Voltage: 220/380V
- Suitable Bottle: 1-5 L
- Condition: New
- Highlight: Tracking Type automatic filling and capping machine
, 2000CPH automatic filling and capping machine
, 5L liquid filling and capping machine

Automatic Capping Machine

FXZ-2G Tracking Type Automatic Capping Machine For Plastic Caps

The equipment is newly developed by our company. The product completes the capping action during movement. It is different from the conventional capping machine. It needs to stop when capping, which will shake the material out of the bottle mouth and pollute the bottle body. The capping machine does not stop, which effectively avoids the stoppage and shaking of capping and keeps the bottle clean. The whole machine has simple structure and convenient adjustment. It is suitable for automatic tracking bottle mouth capping of 1-5L barrel.

Major Parameters:

NO.	Name	Parameter
1	Main machine size(L×W×H)	2heads:2500mm×1800mm×2400mm
2	Machine weight	About 1500kg
3	Suitable cap	Φ30-75mm H20-40mm
4	Equipped power supply	AC380V 50HZ
5	Power	7.5kw
6	Equipped with air source/consumption	0.6MPa clean and dry air source; 200L/min
7	Capacity	2000 bottles/hour

Machine's drawings:

Detailed Introduce:

The replacement specification only needs to replace the capping head of different specifications, and the replacement can be completed in 2 minutes. The mechanical adjustment is completed through the manual lead screw and scale, which is fast and convenient.

The capping head made with high precision is accurate and reliable. It is made of stainless steel. The surface of the parts is professionally treated. The positions of the three claws are triangular, and wear-resistant dichotomanthes tristaniicarpa are installed inside to prevent direct contact between the metal and the cover and reduce the wear of the cover
