

FJ-180 20g-200g Pesticide Filling Machine Powder Granule Horizontal Packing Machine

Our Product Introduction

for more products please visit us on tom-packs.com

Basic Information

- Place of Origin: China
- Brand Name: TOM
- Certification: CE, ISO, CO
- Model Number: FJ-180
- Minimum Order Quantity: 1 Set
- Price: Negotiable
- Packaging Details: Sea Worthy Packing
- Delivery Time: 30 working days
- Payment Terms: L/C, T/T
- Supply Ability: 20 sets per month

Product Specification

- Filling Type: By Screw
- Filling Head: 2 Heads
- Machine Size: 3900mm (L)*970mm (W)*2200mm (H)
- After-sales Service Provided: Engineers Available To Service Machinery Overseas
- Filling Range: 20g-200g
- Warranty: All Life
- Speed: 40-80bags/min
- Materials: SUS304
- Highlight: 200g Pesticide Filling Machine, 20g Pesticide Filling Machine, Granule horizontal packing machine

FJ-180 Fully Automatic High Speed Horizontal Bag Packing Machine For Powder and Granule

Major characteristics:

This type machine is used for heat-sealing multi-layers compound packed material of bags. Automatic achieve bag shaping, bag making, and filling, printing and sealing ECT. Choose different filling device can be suitable for different packing products, for example: powder, paste, granule, liquid and so on.

1. This machine adopts PLC, touch screen control panel, convenient to adjust.
2. The electric parts of this machine are controlled by PLC, touch screen control panel, easy operation, and high produce efficiency, wide application. Frequency conversion speed governor, high auto-immunization. Special device can to make the top sealing nice and smooth. No bag no opening and filling. Photoelectric sensor, approximate switch and other electric elements are using the international famous brand, reliable operation, easy operation, good man-machine interface.
3. It can achieve the double bags packing, multi working positions filling, which can anti-counterfeiting.
4. This type machine with fast speed, easy to change the packing specification, all the parts which will contact the filling products are made of high quality stainless steel, and it is an ideal choice for pharmacy, chemical, foodstuff, cosmetic industries.

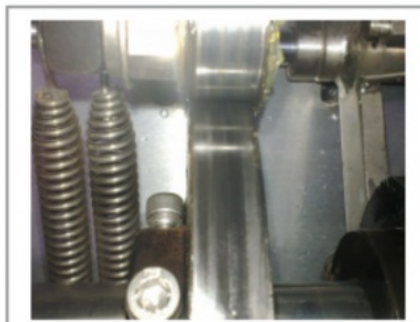

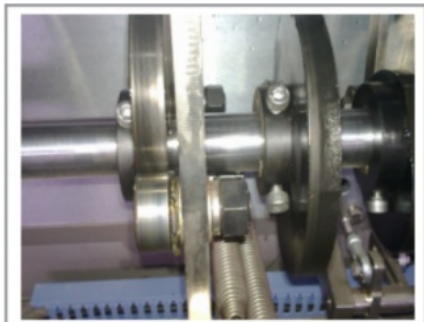

Technical parameters

No.	Items	Performance
01	Power supply	380V \pm 10%
02	Power	8.5kw
03	Air source	0.6Mpa clean and stable compressed air
04	Bag size making	single bag: max: 180mm (W)*225mm (H) Min: 85mm (W)*100mm (H) Double bag: Max (90+90) mm (w)*220(H) Min (80+80) mm (W)*90(H)
05	Suitable film roll	max external diameter: Φ 380mm Inner diameter: Φ 70mm- Φ 80mm
06	Filling product	Powder, liquid, granular
07	Filling range	10g-200g
08	Filling error	30g \leq \pm 1 ,30g-200g \pm 0.5
09	Number of filling nozzles	2 filling heads
10	Production capacity	40bags/min-70bags/min
11	Machine weight	about 1500Kg
12	Machine dimension (L×W×H)	3900mm (L)*970mm (W)*2200mm (H)

Details of Packing Machine:

1. The packing machine's all action realized by this cam, the cam's precision is a key to this machine. Our cam can guarantee for whole lifelong, we will fee-replacement if the cam has any problem.

2. All the sealing parts are processed with made of stainless casting, long service life and more firmness.

3. Human designed for the button

4. Electric elements are choose famous brand

Safety door:

All doors are equipped with photoelectric induction, emergency door opening, machine shutdown alarm to ensure personnel safety.

Packaging & Shipping:

1. the machine is packed by non-fumigation wooden case, and for keeping the wooden case more secure, we inserted the iron support inside wooden case, makes it suitable for long-term sea delivery.

Ware house for finished packed machines:

Loading machines into container:

We have a professional logistics team responsible for shipping
