

6000BPH Chemical Packaging Machine 100ml Automatic Bottle Unscrambler

Our Product Introduction

for more products please visit us on tom-packs.com

Basic Information

- Place of Origin: China
- Brand Name: TOM
- Certification: ISO9001:2000, ISO14001, OHSAS18001, CE, CO
- Model Number: LP-6B
- Minimum Order Quantity: 1 set
- Price: Negotiable
- Packaging Details: Sea Worthy Packing
- Delivery Time: 40 working days for single machine
- Payment Terms: T/T, L/C
- Supply Ability: 10 sets per month

Product Specification

- Control: By HMI And PLC
- Capacity: 6000bph For 100ml
- Guarantee: 1 Year
- After-sales Service Provided: Engineers Available To Service Machinery Overseas
- Voltage: 220V/380V
- Suitable Bottle: 100m-1L Round Bottle
- Automatic Grade: Automatic
- Highlight: **6000BPH Chemical Packaging Machine, 100ml Chemical Packaging Machine, 1L Automatic Bottle Unscrambler**

Chemical Packaging Machine LP-6B Automatic Bottle Unscrambler

Major characteristics:

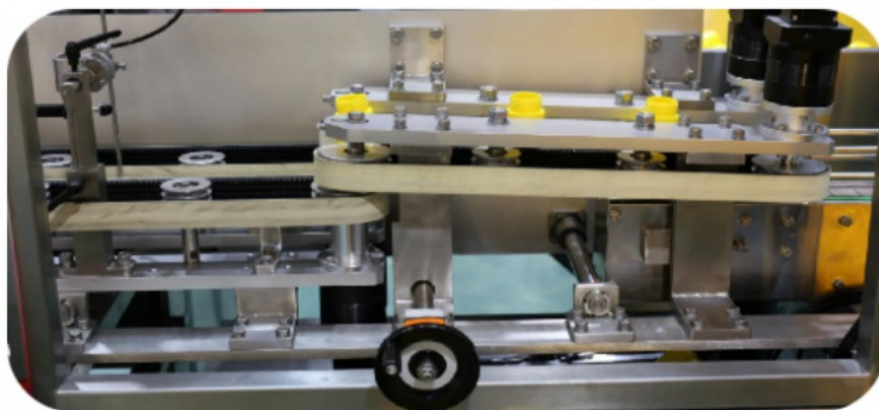

LP-6BY Automatic Bottle Unscrambler consists of a bottle feeding machine, a bottle stopper, a bottle-removing part, a bottle-making part and an electric box. A large number of disordered bottles from the bottle machine is put into the bottle-shaped turntable, and through the conveyor belt to the bottle parts, so that the bottle can be erected to convey to the user's conveyor belt. The compact structure, the principle is simple, the technology is mature, the action is stable and reliable. Native species change as long as the bottle bucket belt replacement, other components without the need to replace the spare parts can be freely adjusted. Making machine according to GMP standards, using high-quality SUS304 stainless steel and aluminum materials processing quality aluminum. Nice machine, high efficiency, can adapt to various work environments, this machine has drive parts are transparent shield, safety, and environmental protection.

Technical Parameter:

Suitable Bottle	diameter: Φ40 95mm, Height:80-250mm
Air pressure	0.5 0.7 Mpa
Infeed direction	from left to right
Total power	4.5kw
Production capacity	100ml-500ml<8000bottles/hour 500ml-1000ml<6000bottles/hour
Host Dimensions	3445mm×1600mm×1500mm
Weight	about 1250kg

Machine details:

When changing bottles, don't need to change any moulds, 100ml-1000nl bottles are can be used on this machines. Easy and fast to adjust,when changing different bottle specification, only changed the belt's quantities and the distance of the spare parts(each belt driven by servo motor separately, capacity, quality and stable are with huge improvement).

Equipped with coordinated photoelectricity, when the bottles on the back conveyor are blocked, the bottle sorting is suspended, and when the back conveyor is smooth, the bottles are sorted again to achieve a perfect connection with the back packaging equipment; the unmanned operation of the whole machine can be realized.

Equipped with an inverted bottle rejection device. When the bottle is sorted out, the inverted bottle is detected photoelectrically, and the cylinder kicks the inverted bottle into the bottle collection bucket.

Packaging & Shipping

1. the machine is packed by non-fumigation wooden case, and for keeping the wooden case more secure, we inserted the iron support inside wooden case, makes it suitable for long-term sea delivery.

Ware house for finished packed machines:

Loading machines into container:

We have a professional logistics team responsible for shipping

Company Overview--Jiangsu Tom Group

Company real scene

Company covers an area of 150 m² office building

New factory processing center

Old factory processing center

Assembly workshop

After-sales service big data service center
