Product Description

FZB-1F Semi-Automatic Stainless Steel PLC Controlled Linear Multi-function Capping Machine for bottle

Main application: It is suitable for screw caps' capping in various industries such as cosmetics, pharmaceuticals, pesticides, and lubricants industries.

Principle and features: The machine adopts one set 4 wheel screw capping wheels, which can be applied to various pump caps and round common caps.

Manually put cap on bottle before capping, when the bottle enters the capping machine, after the photoelectric detection, the bottle will be fixed and positioned to cap tightening, when the cap reaches a certain torque, the clutch is released, and the capping process is completed. Through avoiding bottle injuries to achieve a high pass rate. The main structure of the machine is made of stainless steel 304, the use of internationally renowned brands of electronic components, so that the machine is more stable and beautiful. Meet GMP standards.

Technical parameters:

No.	Items	Performance
01	Power supply	AC220V / 50Hz
02	Power	1KW
03	Suitable caps	15~70mm
