

## Rotary High Speed Pesticide Filling Machine Automatic Powder Filling And Sealing Machine

Our Product Introduction

for more products please visit us on tom-packs.com

### Basic Information

- Place of Origin: Changzhou, China
- Brand Name: TOM
- Certification: ISO9001:2000, ISO14001, OHSAS18001, CE, CO
- Model Number: FJ-210GD/300GD/350GD
- Minimum Order Quantity: 1
- Price: Negotiable
- Packaging Details: Non-fumigation Wooden Case inserted Iron Shelf, Suitable for Long Time Sea Delivery
- Delivery Time: 45 WORKING DAYS
- Payment Terms: T/T
- Supply Ability: 25SETS/MONTHLY

Choose TOM, one-step to reach (powder, granule, liquid filling equipment)

**Intelligent rotary bag packing machine**

### Product Specification

- Material: SS304 Or SS316L
- Pneumatic Element: Airtac
- Electronic Element: Siemens, Schneider Or Panasonic
- Powder Hopper: Including
- Filling Material: Powder And Liquid And Granule
- Sealing Style: 4 Sides Sealing
- Packing Style: Horizontal Type
- Highlight: High Speed Pesticide Filling Machine, Rotary Pesticide Filling Machine, SS316L automatic powder filling and sealing machine

Our Product Introduction

### Product Description

#### Automatic PLC Control Rotary Pesticide Power Filling And Sealing Machine With High Speed

##### Major characteristics:

1. Mechanical arm bag handling -printing -bag opening -filling -jolt ramming- air pressed -sealing - shaping -embossing -outputting
2. PLC and Touch screen control panels are used to control the machine automatically. It is easy to operate and no environment pollution .
3. The mainframe is adjusted by imported frequency conversion .
4. The packaging bags are good-looking, which has been printed and heat-sealed for twice .
5. The machine is designed with shaping service position ,so the mouth of the bag is smooth after sealing.
6. The part which contacts with filling materials is made of stainless steel. It is clean , anti-corrosion and stable.
7. According to the requirement of the filling materials, automatic weighing machine, screw filling machine is optional. Intelligent compound balance and other machines are optional for a filling line .

##### Technical parameters:

No.	Item	Performance
1	Machine overall dimension(LxWxH)	3000mm*2600mm*2200mm
2	Machine weight	1000KG
3	Power supply	380V; 50/60HZ
4	Power	4KW/5KW/5.5KW

5	Bag size (L*W)	210GD :100*150-210*320mm 300GD: 200*180-300*450mm 350GD: 250*230mm-350*500mm
6	Weighing range	210GD :50-500g 300GD: 500g-2000g 350GD: 1kg-5kg
7	Packing speed	210GD : 40bags/minute 300GD: 10-18bags/minute 350GD: 10-15bags/minute
6	Air source	0.6MPa clean and compressed air
7	Air consumption	40L/min
8	Suitable bag type	Three sides bag, four sides bags, stand pouch bag

(powder, granule, liquid filling equipment)

Choose TOM, one-step to reach

—DYX-210 / DYX-300 / DYX-350

## Intelligent rotary bag packing machine

### Machine details:

This machine is suitable for medium and big-sized bag packing, for filling both powder and liquid, small and simple structure, save space.

This filling part is rotary type with 8 working station, there's two filling nozzle, one filling nozzle is rough filling, the second filling is fine filling, there's weighing scale under filling station to guarantee high filling accuracy.

After filling, there's two sealing plate to seal the bag, one is hot sealing plate to seal the bag firmly, the second is cold sealing plate to make the sealing edge more beautiful

This is the bag feeding part, the people need to put the new empty bags into feeding part manually, usually it can house 200-300pcs of bags

This is the bag outlet conveyor, after filling and sealing, the bag will come out by this conveyor to enter into the next packing station

Here's the different material feeding device, dust collector and other auxiliary machines, can meet different requirements of customers

## Auxiliary Machine Series

### 袋包机辅机及辅助装置

Here's the different material filling hopper and filling tank, if the filling material is powder, then machine will use screw hopper, if the filling material is liquid, then machine will use filling tank, if the filling material is granule or other bulk solid, the machine will use weighing head

### Packaging & Shipping

The machine is packed by non-fumigation wooden case, and for keeping the wooden case more secure, we inserted the iron support inside wooden case, makes it suitable for long-term sea delivery.

Tom's logistic department will load the goods into container directly in Tom factory
