

Automatic Horizontal Pesticide Filling Machine

Our Product Introduction

for more products please visit us on tom-packs.com

Basic Information

- Place of Origin: Changzhou, China
- Brand Name: TOM
- Certification: ISO9001:2000, ISO14001, OHSAS18001, CE, CO
- Model Number: DYZ-280
- Minimum Order Quantity: 1
- Price: Negotiable
- Packaging Details: Non-fumigation Wooden Case inserted Iron Shelf, Suitable for Long Time Sea Delivery
- Delivery Time: 45 WORKING DAYS
- Payment Terms: T/T
- Supply Ability: 25SETS/MONTHLY

Choose TOM, one-step to reach (Powder, granule and liquid filling)
DYZ-280 Horizontal bag giving intelligent packing machine

Product Specification

- Material: SS304 Or SS316L
- Pneumatic Element: Airtac
- Electronic Element: Siemens, Schneider Or Panasonic
- Powder Hopper: Including
- Filling Material: Powder And Liquid And Granule
- Sealing Style: 4 Sides Sealing
- Packing Style: Horizontal Type
- Highlight: Horizontal Pesticide Filling Machine, Automatic Pesticide Filling Machine, 40 Bags / Minute powder filling and sealing machine

Product Description

Automatic PLC Control Horizontal Pesticide Power Filling And Sealing Machine With High Speed

Major characteristics:

- The combination of the vertical bag loading mechanism and the servo bag picking has a wide range of use
- Auxiliary bag opening and blowing function, which better provides the bag opening qualification rate
- Through the bag opening detection function, the bag is basically not wasted
- two-dimensional code thermal transfer coding station, online real-time coding.
- Synchronous delivery out of the bag, stable output
- Servo bag moving ensures the trolley moving bag is more stable and reliable.

Technical parameters:

No.	Item	Performance
1	Machine weight	1200KG
2	Power supply	AC 380V 50/60HZ
3	Maximum size of the bag making	280mm(W) *380mm(H)
4	Minimum size of the bag making	120mm(W)*150mm(H)
5	Packing speed	15-40 bags /minute
6	Air source	0.6MPa clean and compressed air
7	Suitable bag type	Three sides sealing, four side sealing and stand pouch

Our Product Introduction

Choose TOM,one-step to reach (Powder, granule and liquid filling)

DYZ-280 Horizontal bag giving intelligent packing machine

Machine details:

This machine is suitable for medium and big-sized pre-made bag packing, for filling both powder and liquid, small and simple structure, save space.

This filling part is linear type filling, there's two filling nozzle, one filling nozzle is rough filling, the second filling is fine filling, there's weighing scale under filling station to guarantee high filling accuracy.

After filling, there's two sealing plate to seal the bag, one is hot sealing plate to seal the bag firmly, the second is cold sealing plate to make the sealing edge more beautiful

This is the bag feeding part, the people need to put the new empty bags into feeding part manually, usually it can house 200-300pcs of bags

This is the bag outlet conveyor, after filling and sealing, the bag will come out by this conveyor to enter into the next packing station

This is the electric box which is dust proof and water proof, clear cable wire line and beautiful cable route

Here's the different material feeding device, dust collector and other auxiliary machines, can meet different requirements of customers

Auxiliary Machine Series

袋包机辅机及辅助装置

Here's the different material filling hopper and filling tank, if the filling material is powder, then machine will use screw hopper, if the filling material is liquid, then machine will use filling tank, if the filling material is granule or other bulk solid, the machine will use weighing head

粉体下料装置
Powder filling device

液体气动 / 伺服活塞下料装置
Liquid pneumatic/servo piston feeding device

液体自流下料装置
Liquid gravity filling device

单 / 双管喂料机
Single/double pipe feeding machine

伺服转子泵下料装置
Servo rotor pump feeding device

真空上料机
Vacuum material feeding machine

平步输送机
Belt conveyor

量杯颗粒下料装置
Cup granular filling device

组合秤下料装置
Composite scale filling device

125-126

Packaging & Shipping

The machine is packed by non-fumigation wooden case, and for keeping the wooden case more secure, we inserted the iron support inside wooden case, makes it suitable for long-term sea delivery.

Tom's logistic department will load the goods into container directly in Tom factory
