

PLC Controlled Chemical Packaging Machine SS304 Material Packing Speed 300bags/hour

Our Product Introduction

for more products please visit us on tom-packs.com

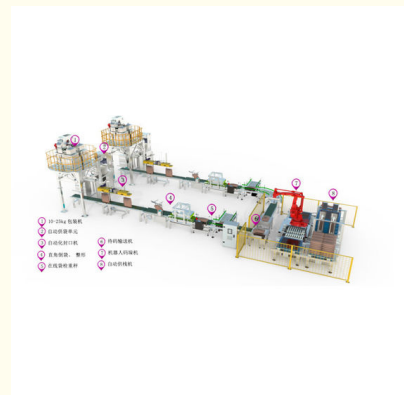

Basic Information

- Place of Origin: China
- Brand Name: TOM
- Certification: ISO9001
- Model Number: DCS-25A
- Minimum Order Quantity: 1 unit
- Price: Negotiate
- Packaging Details: wooden case
- Delivery Time: 2 months
- Payment Terms: T/T
- Supply Ability: 10 UNITS

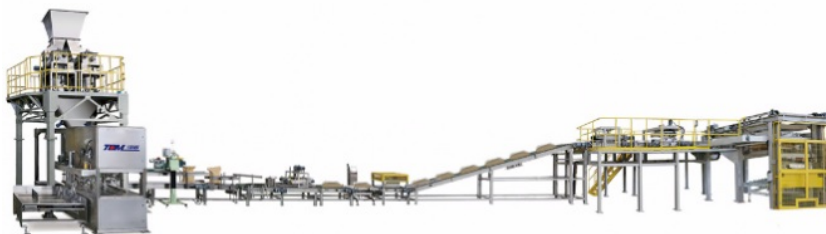

Product Specification

- Machine Material: SS304
- Weighing Accuracy: $\pm 0.2\%$
- PLC Control: Yes
- Packing Speed: 300bags/hour
- Filling Style: Weighing Type
- Bag Filling Range: 25kg-50kg
- Highlight: PLC Chemical Packaging Machine, 300bags/hour Chemical Packaging Machine, SS304 Chemical Filling Machine

Product Description:

Our Chemical Packaging Machine is a reliable and efficient solution for filling and packing of powdery substances, such as fish feedstuff and other chemicals. This machine is constructed from high-grade SS304 material and features a PLC control system for easy operation. The machine has a bag filling range of 25kg to 50kg and can pack up to 300 bags per hour with a weighing type filling style. It is a reliable and durable machine that can handle a variety of packaging tasks with precision and accuracy. The Chemical Packaging Machine is the perfect choice for those looking for an efficient, cost-effective way to package fish feedstuff, powder and other chemicals.

Features:

Product Name: **Chemical Packaging Machine**

machine material: **SS304**

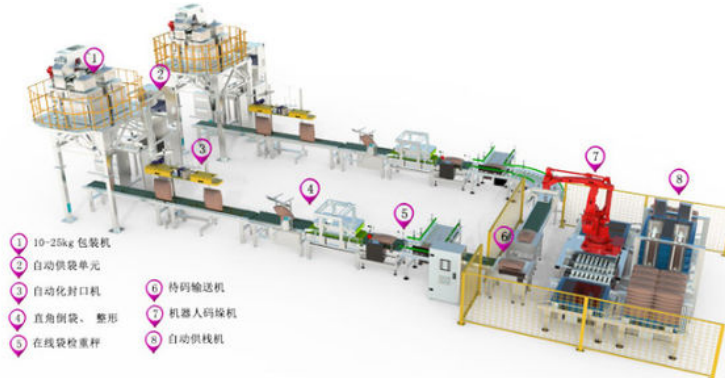

bag filling range: **25kg-50kg**

filling style: **Weighing Type**

PLC control: **Yes**

Weighing accuracy: **±0.2%**

Keywords: **powder bag packaging machine, powder bag filling machine, powder bag filling machine with PLC**

Technical Parameters:

Product Attributes	Technical Parameters
Weighing accuracy	±0.2%
PLC control	Yes
Packing speed	300bags/hour
Bag filling range	25kg-50kg
Filling style	Weighing Type
Machine material	SS304

Applications:

TOM DCS-25A chemical packaging machine is a high-quality powder bag filling machine certified by ISO9001. It is made of superior SS304 material and has a filling style of weighing type. The bag filling range is from 25kg to 50kg, and the packing speed is up to 300bags per hour. It is equipped with PLC control system and has a minimum order quantity of 1 unit. The price is negotiable and delivery time is 2 months. 10 units can be supplied at most.

TOM DCS-25A chemical packaging machine is widely used in food, chemical, pharmaceutical and other industries. With its accurate weighing system, it is suitable for weighing and packaging of various powdery materials. It has a high degree of automation and can be operated easily. In addition, the wooden case package ensures the safe delivery of the machine.

TOM DCS-25A chemical packaging machine is the best choice for high efficiency and cost-effective powder bag filling and packaging. It is the perfect combination of quality and price. If you are looking for the most reliable powder bag filling machine, TOM DCS-25A chemical packaging machine is your ideal choice.

Customization:

TOM DCS-25A Chemical Packaging Machine

Brand Name: TOM

Model Number: DCS-25A

Place of Origin: China

Certification: ISO9001

Minimum Order Quantity: 1 unit

Price: Negotiate

Packaging Details: wooden case

Delivery Time: 2 months

Payment Terms: T/T

Supply Ability: 10 UNITS

Features:

Packing speed: 300bags/hour

Weighing accuracy: $\pm 0.2\%$

Machine material: SS304

Bag filling range: 25kg-50kg

PLC control: Yes

Applications:

TOM DCS-25A Chemical Packaging Machine is suitable for bag packaging of powder products, such as: flour, starch, feed, food and chemical products.

Support and Services:

Technical Support and Service for Chemical Packaging Machine

We provide a comprehensive technical support and service for our Chemical Packaging Machine. Our team of experienced technicians is available to provide assistance to help you maintain, troubleshoot, and upgrade your equipment.

On-site service and maintenance

24/7 phone support

Remote diagnostic and troubleshooting

Spare parts and consumables supply

Operator training

We strive to provide the best service to our customers to ensure that their operations run smoothly and efficiently. Contact us today for more information about our technical support and service.

Packing and Shipping:

Packaging and Shipping

The Chemical Packaging Machine is designed for secure and efficient packing of products in a variety of containers. It is manufactured with a sturdy steel frame and is equipped with a variety of features to ensure safe and efficient handling of chemicals.

The Chemical Packaging Machine is shipped in a single secure box and includes all the necessary components for assembly and operation. The box is clearly labeled with the product name and all the necessary safety information.

The Chemical Packaging Machine is designed for easy installation and is shipped with detailed instructions for assembly and operation. It is also shipped with a full set of safety instructions to ensure safe handling of chemicals.

FAQ:

Q1: What is the brand name of the Chemical Packaging Machine?

A1: The brand name of the Chemical Packaging Machine is TOM.

Q2: What is the model number of the Chemical Packaging Machine?

A2: The model number of the Chemical Packaging Machine is DCS-25A.

Q3: Where is the Chemical Packaging Machine produced?

A3: The Chemical Packaging Machine is produced in China.

Q4: What certification does the Chemical Packaging Machine have?

A4: The Chemical Packaging Machine has an ISO9001 certification.

Q5: What is the minimum order quantity for the Chemical Packaging Machine?

A5: The minimum order quantity for the Chemical Packaging Machine is 1 unit.
