

## Remote Control Pesticide Dispensing Machine With Fully Automatic Grade

Our Product Introduction

for more products please visit us on [tom-packs.com](http://tom-packs.com)

### Basic Information

- Place of Origin: Changzhou City
- Brand Name: TOM
- Certification: CE/ISO-9001

### Product Specification

- Minimum Bottle Opening:  $\geq \Phi 22\text{mm}$
- Temperature: Normal Temperature
- Key Selling Points: Remote Control
- Type: Automatic
- Power Supply: 220V/50Hz
- After Warranty Service: Online Support And Offline Support
- Filling Heads: 16
- Product Type: Automatic Filling Machine
- Highlight: 220V Pesticide Dispensing Machine,  
16 Heads Pesticide Dispensing Machine,  
4800BPH Pesticide Filling Machine

## Product Description:

Pesticide Filling Machine - High Precision and Efficient Pesticide Injecting Equipment

Product Overview

The Pesticide Filling Machine is the ultimate solution for all your pesticide filling needs. This state-of-the-art Pesticide Dispensing System is designed to provide high precision and efficiency in filling your pesticide products. With its automatic grade and user-friendly features, it is the perfect choice for any type of pesticide filling.

Key Selling Points

Remote Control for convenient and safe operation

High Precision in filling to ensure accurate measurements

Efficient filling process for maximum productivity

Flexible to accommodate different types of pesticides

User-friendly interface for easy operation

Reliable performance for consistent results

Product Specifications

<b>Automatic Grade</b>	Fully-automatic
<b>Type</b>	Automatic
<b>Temperature</b>	Normal Temperature
<b>Filling Heads</b>	16

With its 16 Filling Heads, this Pesticide Automated Filler can handle multiple filling tasks simultaneously, increasing efficiency and reducing production time. The temperature control system ensures that the pesticides are filled at the right temperature, preserving their effectiveness.

Remote Operation

The Pesticide Filling Machine comes with a remote control, making it convenient and safe to operate. This feature allows the operator to control the machine from a distance, reducing the risk of exposure to harmful chemicals. The remote control also allows for easy adjustment of settings, ensuring precise and accurate filling.

## Features:

Product Name: Pesticide Filling Machine

Product Type: Automatic Filling Machine

Output Power: 3kw

Precision:  $\pm 0.5\%$

After Warranty Service: Online Support And Offline Support

Capacity: 2800-4800BPH

Pesticide Filling Equipment

Pesticide Filling Automation

Pesticide Filling Automation Solution

## Technical Parameters:

Technical Parameters	
Pesticide Automation Equipment	Pesticide Filling Automation
Pesticide Injection System	
Temperature	Normal Temperature
Automatic Grade	Fully-automatic
Filling Heads	16
Key Selling Points	Remote Control
Type	Automatic
Precision	$\pm 0.5\%$
Capacity	2800-4800BPH
Minimum Bottle Opening	$\geq \Phi 22\text{mm}$
After Warranty Service	Online Support And Offline Support
Product Type	Automatic Filling Machine

## Applications:

Product Description

The TOM Pesticide Filling Machine is an advanced and highly efficient automatic filling machine designed specifically for the pesticide industry. It is the perfect solution for companies looking to streamline their filling process and increase productivity. With its precision, reliability, and automation capabilities, this machine is a must-have for any pesticide production facility.

Brand Name: TOM

The TOM Pesticide Filling Machine is proudly produced and distributed by TOM, a trusted brand in the industry known for its high-quality and innovative products.

Place of Origin: Changzhou City

This machine is manufactured in Changzhou City, a thriving industrial hub in China that is home to some of the most technologically advanced factories in the country.

Certification: CE/ISO-9001

The TOM Pesticide Filling Machine is certified by both CE and ISO-9001, ensuring that it meets the highest quality and safety standards required for industrial machinery.

Precision:  $\pm 0.5\%$

With a precision of  $\pm 0.5\%$ , this machine ensures accurate and consistent filling of pesticide products, reducing waste and improving overall efficiency.

Type: Automatic

The TOM Pesticide Filling Machine is an automatic machine, meaning it operates with minimal human intervention. This allows for a faster and more efficient filling process, saving both time and labor costs.

Power Supply: 220V/50Hz

This machine operates on a standard power supply of 220V/50Hz, making it suitable for use in most industrial settings.

Output Power: 3kw

The TOM Pesticide Filling Machine has an output power of 3kw, making it a powerful and efficient machine capable of handling large volumes of pesticide products.

Product Type: Automatic Filling Machine

The TOM Pesticide Filling Machine is specifically designed as an automatic filling machine, making it the perfect choice for companies looking to automate their pesticide filling process.

Application Scene

The TOM Pesticide Filling Machine is ideal for use in any pesticide production facility, where it can be integrated into the existing production line to improve efficiency and increase output. Its advanced automation system allows for seamless integration with other machines, making it the perfect choice for companies looking to upgrade their pesticide filling equipment.

Pesticide Dispensing System

The TOM Pesticide Filling Machine is equipped with a state-of-the-art pesticide dispensing system, ensuring accurate and precise filling of every product. This system is designed to handle a wide range of pesticide formulations, making it a versatile choice for any production facility.

Pesticide Automation System

The automation system of the TOM Pesticide Filling Machine is one of its key features, allowing for efficient and uninterrupted filling of pesticide products. This system eliminates the need for manual intervention, reducing the risk of human error and increasing overall productivity.

Pesticide Filling Equipment

The TOM Pesticide Filling Machine is a top-of-the-line filling equipment that is specifically designed for the pesticide industry. Its advanced technology, precision, and efficiency make it a valuable addition to any production facility, helping companies save time, reduce costs, and improve overall product quality.

## Packing and Shipping:

Packaging and Shipping of Pesticide Filling Machine

The Pesticide Filling Machine is carefully packaged to ensure its safe delivery to our customers. The machine is first wrapped in a layer of protective film to prevent any scratches or damage during transportation. It is then placed in a sturdy wooden crate and secured with straps to prevent any movement or shifting during transit.

Inside the crate, the machine is surrounded by foam padding to provide additional protection against any impact or shock during shipping. The crate is labeled with the product name, model number, and handling instructions for the convenience of our customers.

For international shipments, the Pesticide Filling Machine is packed in a strong wooden box and reinforced with steel bands. The box is also labeled with all necessary shipping information to ensure smooth customs clearance.

Our company works with reputable shipping companies to ensure timely and efficient delivery of the Pesticide Filling Machine to our customers. We offer a variety of shipping options, including air, sea, and land transportation, to meet the specific needs of our customers. Upon receiving the machine, customers are advised to carefully inspect the packaging for any signs of damage during transit. In the unlikely event of any damage, customers are requested to contact us immediately for assistance.

At our company, we take great care in packaging and shipping our products to ensure their safe delivery to our customers. We are committed to providing the best quality and service to our valued customers around the world.
