

2800-4800BPH Capacity Pesticide Filling Machine With State Of The Art Technology

Our Product Introduction

for more products please visit us on tom-packs.com

Basic Information

- Place of Origin: Changzhou City
- Brand Name: TOM
- Certification: CE/ISO-9001

Product Specification

- Output Power: 3kw
- Filling Heads: 16
- Power Supply: 220V/50Hz
- Key Selling Points: Remote Control
- After Warranty Service: Online Support And Offline Support
- Precision: $\pm 0.5\%$
- Minimum Bottle Opening: $\geq \Phi 22\text{mm}$
- Product Type: Automatic Filling Machine
- Highlight: **Automation Pesticide Filling Machine,
4800BPH Capacity Pesticide Filling Machine,
220V 50Hz Pesticide Packing Machine**

Product Description:

Pesticide Filling Machine

This fully-automatic Pesticide Filling Machine is a high precision and high-speed machine designed for filling various types of pesticide products. With a precision of $\pm 0.5\%$, it ensures accurate filling and eliminates any potential errors or wastage of products. The capacity of this machine ranges from 2800 to 4800 bottles per hour, making it suitable for large-scale production. It is equipped with 16 filling heads, which allows for efficient and simultaneous filling of multiple bottles. The Pesticide Filling Machine is designed with a minimum bottle opening of $\geq \Phi 22\text{mm}$, ensuring compatibility with different sizes and types of bottles. This feature also provides convenience for the user, as it eliminates the need for manual adjustments. One of the key features of this machine is its Pesticide Injection System, which ensures precise and controlled filling of the pesticide. This system is designed to prevent any leakage or spillage of the product, thus maintaining a clean and efficient production process. The Pesticide Dispensing Machine is fully-automatic, which means that it requires minimal human involvement and reduces labor costs. The entire filling process, from bottle feeding to capping, is automated, making it a time-saving and efficient solution for pesticide filling. With its high precision, fast speed, and automation, the Pesticide Filling Machine is a reliable and cost-effective solution for pesticide manufacturers. It is suitable for a wide range of pesticide products, including liquids, powders, and granules, making it a versatile and essential machine for any pesticide production line.

Features:

- Product Name: Pesticide Filling Machine
- Filling Heads: 16
- Type: Automatic
- Power Supply: 220V/50Hz
- Capacity: 2800-4800BPH
- Product Type: Automatic Filling Machine
- Key Features:
 - Pesticide Automation System
 - High filling accuracy
 - Quick and efficient filling process
 - 16 filling heads for increased productivity
 - Automatic operation for convenience and ease of use
 - Power supply of 220V/50Hz for compatibility with standard electrical systems
 - Adjustable filling capacity of 2800-4800 bottles per hour for versatility
 - Easy to clean and maintain
 - Durable and reliable for long-term use
 - Suitable for filling various types of pesticides
 - Compact design for space-saving installation

Technical Parameters:

Pesticide Filling Machine Technical Specifications

| Attribute | Value |
|------------------------|------------------------------------|
| Type | Automatic |
| Filling Heads | 16 |
| Power Supply | 220V/50Hz |
| Minimum Bottle Opening | $\geq \Phi 22\text{mm}$ |
| Key Selling Points | Remote Control |
| Automatic Grade | Fully-automatic |
| Output Power | 3kw |
| After Warranty Service | Online Support And Offline Support |
| Product Type | Automatic Filling Machine |
| Precision | $\pm 0.5\%$ |

Key Features:

- Pesticide Automation System
- Pesticide Dispensing Machine
- Pesticide Automation Equipment

Applications:

Pesticide Filling Machine - TOM

Welcome to TOM's Pesticide Filling Machine - the top choice for all your pesticide filling needs!

Product Introduction

TOM's Pesticide Filling Machine is a highly efficient and reliable automation equipment designed specifically for the pesticide industry. It is used for filling various types of pesticides into round or square bottles with precision and speed. With its advanced technology and quality assurance, it is the perfect choice for your pesticide production line.

Brand Name: TOM

TOM is a renowned brand in the automation industry, known for its high-quality and innovative products. Our Pesticide Filling Machine is no exception - it is designed and manufactured with the highest standards to meet the needs of our customers.

Place of Origin: Changzhou City

Our Pesticide Filling Machine is proudly made in Changzhou City, a city known for its advanced technology and industrial development. This ensures the quality and reliability of our product, as well as timely delivery to our customers.

Certification: CE/ISO-9001

Our Pesticide Filling Machine is certified with CE and ISO-9001, ensuring that it meets all safety and quality standards set by the industry. This certification is a testament to our commitment to providing top-notch products to our customers.

Temperature: Normal Temperature

Our Pesticide Filling Machine is designed to work at normal temperature, making it suitable for various environments and climates. This ensures that the machine operates efficiently and effectively, with no risk of damage due to extreme temperatures.

Output Power: 3kw

With a powerful 3kw output, our Pesticide Filling Machine can handle high volume production with ease. This ensures that your production line runs smoothly and efficiently, meeting your deadlines and increasing your productivity.

After Warranty Service: Online Support And Offline Support

At TOM, we value our customers and their satisfaction is our top priority. That's why we offer both online and offline support for our Pesticide Filling Machine, even after the warranty period. Our team of experts is always available to assist you with any technical issues or queries you may have.

Applicable Bottle Type: Round/Square Bottle

Our Pesticide Filling Machine is versatile and can handle both round and square bottles, making it suitable for a wide range of pesticide products. This flexibility allows you to use the same machine for different types of bottles, saving you time and resources.

Filling Heads: 16

With 16 filling heads, our Pesticide Filling Machine can fill multiple bottles at once, increasing the speed and efficiency of your production line. This also ensures accurate and consistent filling, reducing the risk of product wastage.

Conclusion

TOM's Pesticide Filling Machine is the perfect solution for all your pesticide filling needs. With its high-quality, advanced technology, and reliability, it is the top choice for pesticide production lines. Trust TOM for all your automation equipment needs and experience the difference in your production process.

Packing and Shipping:

Packaging and Shipping

The Pesticide Filling Machine will be packaged in a sturdy wooden crate to ensure safe transportation. The machine will be securely fastened and protected with foam padding to prevent any damage during shipping.

The dimensions of the crate will be customized to fit the specific size of the machine. It will also be clearly labeled with handling instructions and fragile stickers to alert handlers of its delicate contents.

For international shipments, the necessary customs documentation and labeling will be completed to comply with all relevant regulations. Once packaged, the Pesticide Filling Machine will be shipped via a reputable freight carrier to ensure timely and safe delivery. Customers will be provided with a tracking number to monitor the status of their shipment.
