

Automatic Pesticide Filling Machine With 2800-4800BPH Capacity And 3kw Output Power

Our Product Introduction

for more products please visit us on tom-packs.com

Basic Information

- Place of Origin: Changzhou City
- Brand Name: TOM
- Certification: CE/ISO-9001

Product Specification

- Filling Heads: 16
- Output Power: 3kw
- Power Supply: 220V/50Hz
- Product Type: Automatic Filling Machine
- After Warranty Service: Online Support And Offline Support
- Temperature: Normal Temperature
- Capacity: 2800-4800BPH
- Automatic Grade: Fully-automatic
- Highlight: **Automatic Pesticide Filling Machine,
3kw Pesticide Filling Machine,
4800BPH Automatic Filling Machine**

Product Description:

Pesticide Filling Machine - Product Overview

The Pesticide Filling Machine is a state-of-the-art equipment used in the packaging and dispensing of pesticides. It is designed to provide an efficient and accurate solution for filling pesticide products into bottles. With a user-friendly interface and advanced technology, this machine is perfect for any pesticide manufacturing or packaging facility.

Equipped with a Pesticide Dispensing System, this filling machine ensures precise measurement and distribution of pesticides, eliminating the risk of human error and ensuring consistent product quality. The system is also designed to be compatible with a variety of pesticide formulations, making it a versatile choice for different types of pesticides.

The Pesticide Filling Machine is an Automatic type, which means it can operate without manual intervention. This feature not only increases efficiency but also reduces labor costs for the facility. It is also equipped with a 220V/50Hz power supply, making it suitable for use in different regions.

One of the key features of this machine is its compatibility with different bottle types. It can be used for filling Round or Square Bottles, making it an ideal choice for a variety of packaging needs. The Minimum Bottle Opening requirement of $\geq\Phi 22\text{mm}$ ensures that the machine can handle a wide range of bottle sizes, providing flexibility for the facility.

The Pesticide Filling Machine has an Output Power of 3kw, making it a powerful and efficient choice for high-volume production. It is also designed to be easy to maintain, with durable and high-quality components that ensure long-term reliability.

In summary, the Pesticide Filling Machine is a top-of-the-line Pesticide Filling Equipment that offers precision, efficiency, and versatility. With its Pesticide Injection System, Automatic operation, compatibility with Round/Square Bottles, and 3kw Output Power, it is a must-have for any pesticide manufacturing or packaging facility. Invest in this machine and streamline your pesticide production process today!

Features:

Product Name: Pesticide Filling Machine

Applicable Bottle Type: Round/Square Bottle

Filling Heads: 16

Automatic Grade: Fully-automatic

Type: Automatic

Power Supply: 220V/50Hz

Pesticide Filling Equipment

Pesticide Dispensing Machine

Pesticide Filling Equipment

Round Bottle Pesticide Filling Machine

Square Bottle Pesticide Filling Machine

Fully-automatic Pesticide Filling Machine

Automatic Pesticide Filling Machine

Technical Parameters:

Key Selling Points	Remote Control
Filling Heads	16
Capacity	2800-4800BPH
Minimum Bottle Opening	$\geq\Phi 22\text{mm}$
Precision	$\pm 0.5\%$
Applicable Bottle Type	Round/Square Bottle
Type	Automatic
Power Supply	220V/50Hz
After Warranty Service	Online Support And Offline Support
Automatic Grade	Fully-automatic

Applications:

Pesticide Filling Machine - TOM

Brand Name: TOM

Place of Origin: Changzhou City

Certification: CE/ISO-9001

Applicable Bottle Type: Round/Square Bottle

Key Selling Points: Remote Control

Output Power: 3kw

Type: Automatic

Precision: $\pm 0.5\%$

The Pesticide Filling Machine from TOM is a revolutionary product designed to automate the process of filling and dispensing pesticide for various industries. With its advanced technology and precise control, it ensures accurate and efficient filling of pesticides in round or

square bottles.

Based in Changzhou City, TOM is a trusted brand known for its high-quality products and innovative solutions. The Pesticide Filling Machine is no exception, as it is designed and manufactured with the highest standards of quality and safety.

As a fully certified product, the Pesticide Filling Machine meets all the necessary requirements and regulations, making it a reliable choice for any business in need of a pesticide packaging solution. Its CE and ISO-9001 certifications ensure that it adheres to international standards and guarantees excellent performance.

One of the key selling points of the Pesticide Filling Machine is its remote control feature. With a remote control, operators can easily monitor and adjust the filling process, providing convenience and flexibility. This allows for a smooth and hassle-free operation, reducing the risk of human error and increasing productivity.

The Pesticide Filling Machine is also equipped with a powerful 3kw output power, ensuring a fast and efficient filling process. Its automatic function eliminates the need for manual labor, saving time and resources for your business.

With a precision of $\pm 0.5\%$, the Pesticide Filling Machine guarantees accurate and consistent filling of pesticide, minimizing waste and maximizing efficiency. Its user-friendly interface and easy-to-use controls make it suitable for both experienced and novice operators.

In conclusion, the Pesticide Filling Machine from TOM is a must-have for any business in need of a reliable and efficient pesticide filling equipment. Its automation, precision, and remote control feature make it a top choice for those looking for a hassle-free and precise filling solution. Choose TOM and experience the best in pesticide packaging technology.

Packing and Shipping:

Packaging and Shipping

Packaging

The Pesticide Filling Machine is carefully packaged to ensure safe transportation and delivery to our customers. The machine is first wrapped in a layer of protective material to prevent any damage during transit. It is then placed in a sturdy wooden crate and secured with straps to prevent any movement. Finally, the crate is labeled with the necessary information, such as the product name and serial number, for easy identification.

Shipping

We offer various shipping options for our customers to choose from, depending on their location and delivery preferences. The Pesticide Filling Machine can be shipped via air, sea, or ground transportation, depending on the urgency and size of the order. Our team works closely with trusted shipping partners to ensure timely and secure delivery of the machine to our customers.

For international orders, we handle all necessary customs documentation and ensure compliance with all import/export regulations. Our priority is to provide a hassle-free shipping experience for our customers, so they can focus on setting up and using their new Pesticide Filling Machine.

Once the machine has been shipped, we provide our customers with the necessary tracking information so they can monitor the progress of their delivery. Our customer service team is also available to assist with any shipping inquiries or concerns.
