

2800-4800BPH Capacity Pesticide Automation System For Large Scale Production

Our Product Introduction

for more products please visit us on tom-packs.com

Basic Information

- Place of Origin: Changzhou City
- Brand Name: TOM
- Certification: CE/ISO-9001

Product Specification

- Applicable Bottle Type: Round/Square Bottle
- Key Selling Points: Remote Control
- Product Type: Automatic Filling Machine
- Automatic Grade: Fully-automatic
- Temperature: Normal Temperature
- Filling Heads: 16
- Output Power: 3kw
- Capacity: 2800-4800BPH
- Highlight: Large Scale Pesticide Automation System,
3kw Pesticide Automation System,
2800BPH Automatic Filling Machine

Product Description:

Product Overview: Pesticide Filling Machine

Product Type: Automatic Filling Machine

The Pesticide Filling Machine is an advanced and efficient machine designed for the precise and accurate filling of pesticides. It is a fully-automatic machine, which means it can operate without the need for manual intervention, making it a time-saving and cost-effective solution for pesticide filling.

Temperature: Normal Temperature

The Pesticide Filling Machine is designed to operate at normal temperature, which makes it suitable for use in various environments and conditions. It can handle a wide range of pesticides without any change in its performance, ensuring consistent and reliable filling every time.

Automatic Grade: Fully-automatic

With its fully-automatic grade, the Pesticide Filling Machine eliminates the need for human intervention, reducing the chances of human error and ensuring a more efficient and accurate filling process. This also makes it easier to operate and maintain, making it a user-friendly machine.

Filling Heads: 16

The Pesticide Filling Machine comes equipped with 16 filling heads, which allows for a higher production capacity and faster filling process. This makes it suitable for large-scale production of pesticides, making it an ideal choice for commercial pesticide manufacturers.

Precision: $\pm 0.5\%$

Precision is a crucial factor when it comes to filling pesticides, as even a slight variation in the amount can affect the effectiveness of the pesticide. The Pesticide Filling Machine boasts a precision of $\pm 0.5\%$, ensuring accurate and consistent filling of pesticides every time.

Key Features:

Pesticide Dispensing System

Pesticide Injection Machine

Pesticide Dispensing System

Pesticide Filling Machine

The Pesticide Filling Machine features a state-of-the-art Pesticide Dispensing System, which allows for the precise and efficient filling of pesticides. It also comes equipped with a Pesticide Injection Machine, which ensures the uniform distribution of pesticides during the filling process, maximizing its effectiveness. With its reliable Pesticide Dispensing System and advanced Pesticide Injection Machine, the Pesticide Filling Machine is the ultimate solution for all your pesticide filling needs.

Features:

Product Name: Pesticide Filling Machine

Power Supply: 220V/50Hz

Minimum Bottle Opening: $\geq \Phi 22\text{mm}$

Output Power: 3kw

After Warranty Service: Online Support And Offline Support

Applicable Bottle Type: Round/Square Bottle

Pesticide Automation System

Pesticide Filling Equipment

Pesticide Injecting Equipment

Technical Parameters:

Product Name	Pesticide Filling Machine
After Warranty Service	Online Support And Offline Support
Filling Heads	16
Output Power	3kw
Temperature	Normal Temperature
Automatic Grade	Fully-automatic
Type	Automatic
Capacity	2800-4800BPH
Minimum Bottle Opening	$\geq \Phi 22\text{mm}$
Product Type	Automatic Filling Machine
Precision	$\pm 0.5\%$
Key Features	Pesticide Automated Filler, Pesticide Automation Equipment, Pesticide Injection System

Applications:

Welcome to TOM's Pesticide Filling Machine

TOM Pesticide Filling Machine is a high quality and efficient machine designed for filling pesticide in bottles. Our machine is perfect for

various industries such as agriculture, gardening, and pest control.

Brand Name: TOM

Our brand TOM represents high precision, high efficiency, and reliable quality. We strive to provide the best products and services to our customers.

Place of Origin: Changzhou City

Our Pesticide Filling Machine is proudly made in Changzhou City, known for its advanced technology and manufacturing industry. We use top of the line materials and components to ensure the durability and stability of our machines.

Certification: CE/ISO-9001

Our Pesticide Filling Machine has obtained the CE and ISO-9001 certifications, meeting international standards for safety, quality, and environmental management. You can trust in the quality and reliability of our products.

Minimum Bottle Opening: $\geq \Phi 22\text{mm}$

Our Pesticide Filling Machine is designed to fill bottles with a minimum opening of $\Phi 22\text{mm}$, ensuring the compatibility with a wide range of bottle sizes and shapes. This allows for flexibility and versatility in your production line.

Precision: $\pm 0.5\%$

With our high precision technology, our Pesticide Filling Machine can fill bottles with an accuracy of $\pm 0.5\%$, ensuring the exact amount of pesticide is dispensed into each bottle. This eliminates waste and reduces production costs.

Capacity: 2800-4800BPH

Our Pesticide Filling Machine has a high capacity of 2800-4800 bottles per hour, making it a highly efficient and time-saving machine. This allows for a faster production line and increased productivity.

Temperature: Normal Temperature

Our Pesticide Filling Machine is designed to operate at normal temperature, making it suitable for various environments. This eliminates the need for additional temperature control systems and reduces energy consumption.

Power Supply: 220V/50Hz

Our Pesticide Filling Machine requires a power supply of 220V/50Hz, which is a common voltage and frequency used in most countries. This makes our machine easy to operate and suitable for various locations.

Pesticide Injection System

Our Pesticide Filling Machine is equipped with a precise and efficient pesticide injection system, ensuring the accurate dispensing of pesticide into each bottle. This system is designed to minimize spillage and reduce contamination, ensuring the safety and quality of your products.

Pesticide Dispensing Machine

Our Pesticide Filling Machine is an automatic filling machine, designed to accurately and efficiently dispense pesticide into bottles. With its easy-to-use interface and advanced technology, our machine is suitable for both small and large scale production.

Pesticide Filling Equipment

Our Pesticide Filling Machine is a complete filling equipment, equipped with a bottle feeding system, filling system, capping system, and labeling system. This all-in-one machine eliminates the need for manual labor and increases the efficiency of your production line.

Safe and Reliable

At TOM, we prioritize the safety and reliability of our products. Our Pesticide Filling Machine is designed with safety features such as emergency stop buttons and safety guards to prevent accidents and ensure the safety of your employees.

Easy Operation

Our Pesticide Filling Machine is user-friendly, with a simple and easy-to-operate interface. With minimal training, anyone can operate the machine and ensure the smooth operation of your production line.

Choose TOM Pesticide Filling Machine for high precision, high efficiency, and safe and reliable filling of pesticide. Request a quote now and experience the TOM difference.

Packing and Shipping:

Packaging and Shipping

The Pesticide Filling Machine will be carefully packaged to ensure safe delivery. The machine will be wrapped in protective material and placed in a sturdy wooden crate. The crate will then be sealed and labeled with the product information.

We offer both air and sea shipping options. For air shipping, the machine will be packed in a secure crate and shipped via a reputable air freight company. For sea shipping, the machine will be loaded onto a shipping container and transported by a trusted shipping carrier.

The shipping cost will vary depending on the shipping method and destination. Please contact us for a quote and estimated delivery time.
