

## High Speed Production Chemical Capping Machine with 99.5% Pass Rate

Our Product Introduction

for more products please visit us on tom-packs.com

### Basic Information

- Place of Origin: Changzhou City
- Brand Name: TOM
- Certification: CE/ISO-9001
- Minimum Order Quantity: 1 set
- Price: \$10000-\$100000

### Product Specification

- Machine Frame: SS304
- Advantage: Multi - Functional
- Pass Rate:  $\geq 99.5\%$
- Power Consumption: 1.5KW
- Application: Food, Beverage, Commodity, Chemical
- Programmer: Share With Filling Machine
- Qualified Rate:  $\geq 99.8\%$
- Applicable Bottle: 100ml-1000ml Bottle
- Highlight: **SS304 Chemical Capping Machine, 99.5% Chemical Capping Machine, 1000ml Bottle Automatic Capping Machine**

## Product Description:

### Automatic Capping Machine

The Automatic Capping Machine is a revolutionary product designed to streamline the capping process in the manufacturing industry. It is an essential piece of equipment for companies looking to increase efficiency and reduce labor costs in their production lines.

With a qualified rate of  $\geq 99.8\%$ , this capping machine guarantees precision and accuracy in every cap placement. This ensures that all products are sealed tightly and ready for distribution to customers.

One of the standout features of this machine is its compatibility with filling machines. By sharing programming capabilities, the capping machine can seamlessly integrate with filling machines, creating a more efficient and synchronized production process.

The Automatic Capping Machine consumes only 1.5KW of power, making it an energy-efficient choice for any manufacturing facility. This not only reduces energy costs but also helps to minimize the carbon footprint of the company.

The capping machine is specially designed to work with bottles ranging from 100ml to 1000ml. This versatility makes it suitable for a wide range of products, from cosmetics and pharmaceuticals to food and beverage items.

The rotary capping type of this machine is another feature that sets it apart from traditional capping machines. This type of capping allows for a smoother and more efficient process, reducing the risk of spills or damage to the caps.

In addition to its exceptional functionality, the Automatic Capping Machine is also built for durability. Its robust construction and high-quality materials ensure that it can withstand the rigors of continuous use in a manufacturing setting.

With its advanced technology and user-friendly design, the Automatic Capping Machine is a game-changer in the world of capping. It not only increases productivity and efficiency but also improves the overall quality and consistency of products. Invest in the Automatic Capping Machine today and experience the difference it can make in your production line.

## Features:

Product Name: Automatic Capping Machine

Power Consumption: 1.5KW

Warranty: 1 Year

Advantage: Multi - Functional

Machine Frame: SS304

Application: Food, Beverage, Commodity, Chemical

High Speed

Rotary Capping Machine

Capping Machine

## Technical Parameters:

Technical Parameters	Description
Product Name	Automatic Capping Machine
Advantage	Multi-Functional
Programmer	Share With Filling Machine
Warranty	1 Year
Applicable Bottle	100ml-1000ml Bottle
Pass Rate	$\geq 99.5\%$
Keyword	Barrel Capping Machine
Power Consumption	1.5KW
Qualified Rate	$\geq 99.8\%$
Application	Food, Beverage, Commodity, Chemical
Machine Frame	SS304
Key Features	Rotary Capping Machine, High Speed, High Speed Capping, Automatic

## Applications:

Automatic Capping Machine - Efficient and Reliable Capping Solution for Various Industries

The Automatic Capping Machine by TOM is a top-of-the-line capping solution that is suitable for a wide range of industries. With its high speed, rotary capping technology, this machine is designed to provide efficient and precise capping for your products. Its user-friendly interface and adjustable settings make it easy to use and customizable to meet your specific needs.

Brand Name: TOM

The TOM brand is known for its high-quality and reliable products in the packaging industry. With years of experience and a strong reputation, TOM is a trusted name in the market.

Place of Origin: Changzhou City

Our Automatic Capping Machine is proudly manufactured in Changzhou City, known for its advanced technology and skilled workforce in the packaging industry.

Certification: CE/ISO-9001

The Automatic Capping Machine by TOM is certified with CE and ISO-9001, ensuring that it meets the highest quality and safety

standards.

Minimum Order Quantity: 1 set

At TOM, we understand that every business has different needs, which is why we offer a minimum order quantity of just 1 set for our capping machine.

Price: \$10000-\$100000

The price range for our Automatic Capping Machine is between \$10000 to \$100000, making it a cost-effective solution for your capping needs.

Keyword: Barrel Capping Machine

Our capping machine is also known as a barrel capping machine, specifically designed for capping barrels and drums with efficiency and precision.

Machine Frame: SS304

The machine frame of our Automatic Capping Machine is made of high-quality SS304 material, making it durable and long-lasting even in harsh industrial environments.

Advantage: Multi-Functional

One of the key advantages of our capping machine is its multi-functional capabilities. It can be used for various types of caps and bottles, making it a versatile solution for your packaging needs.

Qualified Rate: ≥99.8%

Our Automatic Capping Machine has a qualified rate of over 99.8%, ensuring that your products are capped accurately and efficiently every time.

Capping Type: Rotary Type

The capping type of our machine is rotary, which means it uses rotating heads to tighten caps onto bottles. This technology provides a fast and efficient capping process.

Application Scenarios:

Food and beverage industry: Our capping machine can be used for capping bottles and jars of various sizes and shapes, such as sauces, condiments, and beverages.

Pharmaceutical industry: With its precise and efficient capping, our machine is ideal for capping medicine bottles with different types of caps, ensuring product safety and quality.

Chemical industry: Our capping machine can handle various types of chemical products, such as cleaning solutions, oils, and solvents, providing a reliable and secure capping process.

Cosmetics industry: The versatility of our capping machine makes it suitable for capping different types of cosmetic products, including creams, lotions, and perfumes.

## Packing and Shipping:

### Packaging and Shipping

The Automatic Capping Machine is carefully packaged to ensure safe and secure delivery to our customers. Each component is individually wrapped and placed in a sturdy box or crate to prevent any damage during transportation.

For international shipments, the machine will be packed in a wooden crate and sealed with a moisture barrier to protect it from any external elements. The crate will also be marked with clear and visible labels indicating the product name, model number, and handling instructions.

Once packaged, the machine will be sent to our trusted shipping partners for delivery. We offer various shipping options to suit our customers' needs, including express delivery for urgent orders.

Upon arrival at its destination, the machine will be carefully unloaded and inspected to ensure that it has arrived in perfect condition. Our team will then assist with the installation and setup of the machine to ensure a smooth and efficient operation.

We take great care in packaging and shipping our Automatic Capping Machine to ensure that it reaches our customers in the best possible condition. For any questions or concerns regarding our packaging and shipping process, please don't hesitate to contact us.
