Basic Information

- Place of Origin: Changzhou City
- Brand Name: TOM
- Certification: CE/ISO-9001
- Minimum Order Quantity: 1 set
- Price: \$10000-\$100000

Product Specification

- Keyword: Barrel Capping Machine
- Pass Rate: $\geq 99.5\%$
- Applicable Bottle: 100ml-1000ml Bottle
- Capping Type: Rotary Type
- Qualified Rate: $\geq 99.8\%$
- Application: Food, Beverage, Commodity, Chemical
- Power Consumption: 1.5KW
- Warranty: 1 Year
- Highlight: Rotary Type Automatic Capping Machine, Automatic Capping Machine 1.5KW, 99.5% Barrel Capping Machine

Share Programmer With Filling Machine Automatic Capping Machine For High Pass Rate

Product Description:

Automatic Capping Machine

The Automatic Capping Machine is a high-speed, versatile and automatic rotary capping machine that is designed to effectively cap barrels. It is the perfect solution for businesses looking for a reliable and efficient capping machine.

With its multi-functional capabilities, the Automatic Capping Machine is able to cap a variety of sizes and shapes of barrels, making it suitable for different types of products. This eliminates the need for multiple capping machines, saving space and cost for businesses. The machine has a qualified rate of at least 99.8%, ensuring high quality and consistent capping results. This is made possible by its advanced technology and precision engineering, which guarantees accurate and secure capping for every barrel.

One of the key advantages of the Automatic Capping Machine is its high speed capabilities. It is able to cap barrels at a rapid pace, increasing productivity and efficiency for businesses. This is especially beneficial for high-volume production lines, where time is of the essence.

The power consumption of the machine is 1.5KW, making it energy-efficient and cost-effective for businesses. This helps to reduce electricity costs and is more environmentally friendly.

The Automatic Capping Machine is designed to work seamlessly with filling machines, making it a valuable addition to any production line. Its programmer can be shared with filling machines, simplifying the operation process and improving overall efficiency.

In conclusion, the Automatic Capping Machine is a top-of-the-line product that offers a range of benefits for businesses. Its high speed, multi-functional capabilities, and compatibility with filling machines make it a valuable investment for any production line. With a qualified rate of at least 99.8%, you can trust that this rotary capping machine will provide consistent and reliable results for all your capping needs.

Features:

Product Name: Automatic Capping Machine

Capping Type: Rotary Type

Advantage: Multi - Functional

Machine Frame: SS304

Applicable Bottle: 100ml-1000ml Bottle

Application: Food, Beverage, Commodity, Chemical

Technical Parameters:

Technical Parameters	Automatic Capping Machine
Qualified Rate	>=99.8%
Keyword	Barrel Capping Machine
Power Consumption	1.5KW
Pass Rate	>=99.5%
Warranty	1 Year
Advantage	Multi-Functional
Capping Type	Rotary Type
Programmer	Share With Filling Machine
Machine Frame	SS304
Applicable Bottle	100ml-1000ml Bottle

Applications:

Automatic Capping Machine Application and Scenario

The TOM Automatic Capping Machine is a high-speed, rotary capping machine that is designed for use in various industries, such as pharmaceuticals, food and beverage, cosmetics, and chemical. It is a versatile and efficient machine that can be used for capping a wide range of bottles, jars, and containers.

Brand Name: TOM

The TOM Automatic Capping Machine is a product of TOM Machinery, a reputable manufacturer of packaging machinery based in Changzhou City. With years of experience and expertise in the industry, TOM Machinery has established a strong reputation for producing high-quality and reliable packaging machines.

Place of Origin: Changzhou City

The TOM Automatic Capping Machine is proudly made in Changzhou City, a city known for its advanced manufacturing capabilities and efficient supply chain management. This guarantees the quality and reliability of the machine.

Certification: CE/ISO-9001

The TOM Automatic Capping Machine is CE and ISO-9001 certified, ensuring that it meets the highest international standards for quality, safety, and performance. This certification also makes it suitable for use in various countries worldwide.

Minimum Order Quantity: 1 set

Customers can order the TOM Automatic Capping Machine in any quantity they require, with a minimum order of 1 set. This makes it suitable for both small-scale and large-scale production.

Price: \$10000-\$100000

The price of the TOM Automatic Capping Machine ranges from \$10000 to \$100000, depending on the specific model and customization options chosen. This makes it a cost-effective choice for businesses of all sizes.

Power Consumption: 1.5KW

The TOM Automatic Capping Machine has a low power consumption of only 1.5KW, making it energy-efficient and environmentally friendly.

Pass Rate: $\geq 99.5\%$

The TOM Automatic Capping Machine has a high pass rate of over 99.5%, ensuring that it effectively caps bottles and containers without any errors or defects.

Warranty: 1 Year

The TOM Automatic Capping Machine comes with a 1-year warranty, providing customers with peace of mind and ensuring that any potential issues are promptly addressed by the manufacturer.

Qualified Rate: $\geq 99.8\%$

The qualified rate of the TOM Automatic Capping Machine is over 99.8%, meaning that it meets the highest standards for accuracy and precision in capping.

Programmer: Share With Filling Machine

The TOM Automatic Capping Machine can be easily integrated with other packaging machines, such as filling machines, through a shared programmer. This allows for a seamless and efficient production process.

Overall, the TOM Automatic Capping Machine is a reliable and efficient solution for all your capping needs. Its high speed, rotary design, and advanced features make it suitable for a wide range of applications and industries. Trust TOM Machinery to provide you with a high-quality and cost-effective capping solution. Contact us now for more information and to request a quote.

Packing and Shipping:

Packaging and Shipping for Automatic Capping Machine

Our Automatic Capping Machine is carefully packaged and shipped to ensure its safe arrival at your doorstep.

Packaging

The Automatic Capping Machine is packaged in a sturdy wooden crate to protect it from any damage during transportation.

Shipping

For domestic orders, we use reliable shipping services such as UPS, FedEx, or DHL to deliver the machine to your location within 3-5 business days.

For international orders, we work with trusted freight forwarders to ensure a smooth and timely delivery. Shipping times may vary depending on the destination country.

All shipping costs will be calculated at checkout and included in your final invoice.

Please note that any additional customs fees or taxes incurred during international shipping will be the responsibility of the buyer.

Once your order has been shipped, you will receive a confirmation email with a tracking number so you can monitor the status of your delivery.

For any questions or concerns regarding packaging and shipping, please don't hesitate to contact us. We are committed to providing the best service possible to our customers.
