Basic Information

- Place of Origin: Changzhou City
- Brand Name: TOM
- Certification: CE/ISO-9001
- Minimum Order Quantity: 1 set
- Price: \$10000-\$100000

Product Specification

- Capping Type: Rotary Type
- Power Consumption: 1.5KW
- Warranty: 1 Year
- Keyword: Barrel Capping Machine
- Programmer: Share With Filling Machine
- Application: Food, Beverage, Commodity, Chemical
- Advantage: Multi - Functional
- Pass Rate: $\geq 99.5\%$
- Highlight: **1.5KW Rotary Capping Machine,
Multifunctional Rotary Capping Machine,
1.5KW Barrel Capping Machine**

Product Description:

Automatic Capping Machine

The Automatic Capping Machine is a state-of-the-art product designed to streamline the capping process in various industries. It is a high-speed, rotary capping machine that guarantees a qualified rate of $\geq 99.8\%$ and a pass rate of $\geq 99.5\%$. With its multi-functional capabilities and 1-year warranty, this capping machine is a reliable and efficient solution for all your capping needs.

Advantages of the Automatic Capping Machine

The Automatic Capping Machine has several advantages that make it stand out from other capping machines in the market. Some of its key advantages include:

Multi-Functional: This capping machine is designed to handle a wide range of capping tasks, making it suitable for use in various industries such as food and beverage, pharmaceutical, and cosmetic.

High Speed: With its advanced technology and precision engineering, the Automatic Capping Machine ensures fast and efficient capping, making it ideal for high-volume production lines.

Rotary Capping: The rotary capping mechanism of this machine provides smooth and consistent capping, reducing the risk of spills and leaks.

Warranty and Support

We understand the importance of investing in reliable and durable equipment for your business. That's why the Automatic Capping Machine comes with a 1-year warranty, giving you peace of mind and ensuring that any technical issues are promptly addressed. Our team of experts is also available to provide technical support and assistance, ensuring that your capping machine is always in top condition and running smoothly.

Product Specifications

The Automatic Capping Machine is designed to meet the highest industry standards, with its specifications including:

Capping Type: Rotary Type

Qualified Rate: $\geq 99.8\%$

Pass Rate: $\geq 99.5\%$

Invest in the Automatic Capping Machine today and experience efficient, reliable, and high-quality capping for your business. Contact us now to learn more about this product and how it can benefit your production line.

Features:

Product Name: Automatic Capping Machine

Programmer: Share With Filling Machine

Power Consumption: 1.5KW

Machine Frame: SS304

Applicable Bottle: 100ml-1000ml Bottle

Advantage: Multi-Functional

High Speed

Capping Machine

Technical Parameters:

Product Name	Automatic Capping Machine
Capping Type	Rotary Type
Advantage	Multi-Functional
Keyword	Barrel Capping Machine
Applicable Bottle	100ml-1000ml Bottle
Programmer	Share With Filling Machine
Warranty	1 Year
Pass Rate	$\geq 99.5\%$
Power Consumption	1.5KW
Qualified Rate	$\geq 99.8\%$
Application	Food, Beverage, Commodity, Chemical

Applications:

Automatic Capping Machine - TOM

Brand Name: TOM

Place of Origin: Changzhou City

Certification: CE/ISO-9001

Minimum Order Quantity: 1 set

Price: \$10000-\$100000

Warranty: 1 Year

Machine Frame: SS304

Capping Type: Rotary Type
Qualified Rate: ≥99.8%
Advantage: Multi - Functional

The Automatic Capping Machine by TOM is the perfect solution for high speed capping in a variety of industries. Designed and manufactured in Changzhou City, this machine has been certified with CE and ISO-9001, ensuring its quality and reliability.

Application and Scene

The Automatic Capping Machine is ideal for use in industries such as pharmaceuticals, cosmetics, food and beverage, and household chemicals. Its versatility allows it to be used for capping a wide range of bottle sizes and shapes, making it a valuable asset in any production line.

The machine is designed to automatically cap bottles at a high speed, reducing the time and labor required for capping. This makes it the perfect solution for high volume production, ensuring efficiency and cost-effectiveness.

The easy operation of the machine makes it suitable for use in various production settings, from small-scale businesses to large manufacturing plants. Its simple and user-friendly interface allows for quick and hassle-free setup, reducing downtime and increasing productivity.

Features and Benefits

High speed capping: The rotary capping machine is designed to cap bottles at a high speed, ensuring efficient production.

Automatic capping: The machine is fully automated, reducing the need for manual labor and increasing production efficiency.

Easy operation: The user-friendly interface and simple setup process make the machine easy to operate, requiring minimal training for new users.

Versatile: The machine can be used for capping a variety of bottle sizes and shapes, making it suitable for use in different industries and production lines.

Durable: The machine frame is made of SS304, ensuring its durability and longevity.

Reliable: The machine has a qualified rate of ≥99.8%, ensuring consistent and accurate capping results.

Multi-functional: The machine can be used for capping different types of caps, including screw caps, press caps, and more, making it a versatile and cost-effective solution.

Warranty: The machine comes with a 1-year warranty, providing customers with peace of mind and assurance of its quality.

In conclusion, the Automatic Capping Machine by TOM is a highly efficient, reliable, and versatile solution for high-speed bottle capping. Its automatic operation, easy setup, and multi-functional capabilities make it a valuable asset in any production line. With its durable construction and high qualified rate, it is a cost-effective choice for businesses looking to improve their capping process. Choose TOM for your capping needs and experience the benefits of this top-quality machine.

Packing and Shipping:

Packaging and Shipping - Automatic Capping Machine

Packaging:

The Automatic Capping Machine will be carefully packaged in a sturdy cardboard box to ensure its safe transportation. The machine will be secured with foam padding and bubble wrap to protect it from any potential damage during shipping.

Shipping:

The Automatic Capping Machine will be shipped via a trusted and reliable courier service. The shipping cost will be calculated based on the weight and dimensions of the package, as well as the delivery location. Customers can choose their preferred shipping method and track their order using the provided tracking number.

For international orders, additional customs fees and import taxes may apply. These fees are not included in the shipping cost and will be the responsibility of the customer.

Once the order is shipped, customers will receive a confirmation email with the tracking information and estimated delivery date. Our team will also provide support and assistance in case of any issues or delays during shipping.

We strive to ensure that the Automatic Capping Machine arrives at its destination in perfect condition and in a timely manner. If for any reason the package is damaged or lost during shipping, please contact us immediately for assistance.
