

SS304 Frame Automatic Capping Machine for Food Production 100ml-1000ml Bottle

Our Product Introduction

for more products please visit us on tom-packs.com

Basic Information

- Place of Origin: Changzhou City
- Brand Name: TOM
- Certification: CE/ISO-9001
- Minimum Order Quantity: 1 set
- Price: \$10000-\$100000

Product Specification

- Application: Food, Beverage, Commodity, Chemical
- Advantage: Multi - Functional
- Pass Rate: $\geq 99.5\%$
- Power Consumption: 1.5KW
- Qualified Rate: $\geq 99.8\%$
- Machine Frame: SS304
- Applicable Bottle: 100ml-1000ml Bottle
- Capping Type: Rotary Type
- Highlight: SS304 Frame Automatic Capping Machine,
100ml Bottle Automatic Capping Machine,
100ml Bottle Screw Capping Machine

Product Description:

Automatic Capping Machine - High Speed and Precision for Efficient Production

The Automatic Capping Machine is a cutting-edge product designed for the packaging industry. This revolutionary machine is specially designed to cap barrels of various sizes with precision and efficiency, making it an essential tool for any production line. With its advanced technology and multi-functional capabilities, it is guaranteed to increase productivity and reduce labor costs.

The capping process is crucial in the packaging industry as it ensures the safety and quality of the products. The Automatic Capping Machine utilizes high-speed rotary capping technology, which can cap up to 500 barrels per minute. This high-speed capability not only saves time but also increases production output, making it a valuable asset for any manufacturing company.

One of the key advantages of the Automatic Capping Machine is its automated function. It is designed to automatically cap barrels, eliminating the need for manual labor and reducing the chances of human error. With its advanced programming, the machine can cap barrels of different sizes with precision, ensuring a perfect seal every time. This feature also makes it easy to operate and maintain, saving time and resources.

The Automatic Capping Machine is also highly reliable, with a qualified rate of no less than 99.8%. This means that the machine can cap barrels with precision and consistency, ensuring the quality of the products. Its pass rate is also no less than 99.5%, guaranteeing that the capped barrels are sealed correctly and ready for distribution.

One of the most significant advantages of the Automatic Capping Machine is its multi-functional capability. It can be easily integrated into existing production lines, making it a versatile and cost-effective solution for any manufacturing company. It can also be used in conjunction with filling machines, sharing the programming and increasing efficiency in the production process.

In conclusion, the Automatic Capping Machine is a game-changing product for the packaging industry. Its high-speed and precision capabilities, combined with its automation and multi-functional design, make it an essential tool for any production line. With its reliable performance and guaranteed qualified and pass rates, it is a valuable investment for any manufacturing company looking to increase productivity and reduce costs.

Features:

Product Name: Automatic Capping Machine

Qualified Rate: ≥99.8%

Keyword: Barrel Capping Machine

Application: Food, Beverage, Commodity, Chemical

Warranty: 1 Year

Programmer: Share With Filling Machine

Capping Machine

High Speed

Capping Efficiency

Easy to Operate

Adjustable Capping Force

Various Bottle Sizes

Multiple Capping Methods (Screw, Press, Twist)

Accurate Torque Control

Stable Performance

Compact Design

Technical Parameters:

Capping Type	Rotary Type
Power Consumption	1.5KW
Programmer	Share With Filling Machine
Qualified Rate	≥99.8%
Application	Food, Beverage, Commodity, Chemical
Keyword	Barrel Capping Machine
Machine Frame	SS304
Advantage	Multi-Functional
Applicable Bottle	100ml-1000ml Bottle
Pass Rate	≥99.5%
Key Features	
High Speed, Durable, Efficient	

Applications:

Automatic Capping Machine - TOM

Overview:

The Automatic Capping Machine by TOM is a high-speed, reliable and efficient rotary capping machine designed for various industries.

With its automatic capping function, it is the perfect solution for businesses looking to increase their production efficiency and reduce labor costs. The machine is certified with CE/ISO-9001, ensuring its quality and safety standards.

Brand Name:

TOM

Place of Origin:

Changzhou City

Certification:

CE/ISO-9001

Minimum Order Quantity:

1 set

Price:

\$10000-\$100000

Qualified Rate:

≥99.8%

Programmer:

Share With Filling Machine

Application:

The Automatic Capping Machine by TOM is suitable for a wide range of industries, including food, beverage, commodity, and chemical. It can be used to cap bottles of various sizes, making it a versatile and cost-effective solution for businesses of all sizes.

Applicable Bottle:

This capping machine is designed to work with bottles ranging from 100ml to 1000ml in size.

Pass Rate:

≥99.5%

Features:

High-speed capping machine for efficient production

Automatic capping function for reduced labor costs

Reliable and precise capping mechanism

Can be used for various industries and bottle sizes

Certified with CE/ISO-9001 for quality and safety assurance

Works seamlessly with Filling Machine for a complete production line solution

Conclusion:

The Automatic Capping Machine by TOM is a top-of-the-line solution for businesses looking to streamline their production process and increase efficiency. Its high-speed, reliable and efficient features make it a valuable addition to any production line. With its versatile application and certified quality, this capping machine is a must-have for businesses in the food, beverage, commodity, and chemical industries.

Packing and Shipping:

Packaging and Shipping

The Automatic Capping Machine will be carefully packaged to ensure safe delivery to our customers. It will be packed in a sturdy wooden crate and secured with packaging materials to prevent any damage during transportation. The crate will also be clearly labeled with handling instructions and product information for easy identification.

For shipping, we offer both domestic and international options to meet our customers' needs. Domestic orders will be shipped via standard ground shipping and international orders will be shipped via air or ocean freight, depending on the destination. Customers can also choose to use their own shipping carrier if preferred.
