

High Speed Automatic Capping Machine Power Consumption 1.5KW For Industrial

Our Product Introduction

for more products please visit us on tom-packs.com

Basic Information

- Place of Origin: Changzhou City
- Brand Name: TOM
- Certification: CE/ISO-9001
- Minimum Order Quantity: 1 set
- Price: \$10000-\$100000

Product Specification

- Application: Food, Beverage, Commodity, Chemical
- Advantage: Multi - Functional
- Capping Type: Rotary Type
- Applicable Bottle: 100ml-1000ml Bottle
- Machine Frame: SS304
- Keyword: Barrel Capping Machine
- Warranty: 1 Year
- Programmer: Share With Filling Machine
- Highlight: **1.5KW Automatic Capping Machine, SS304 Automatic Capping Machine, 100ml Automatic Bottle Capper**

1 Year High Speed Power Consumption 1.5KW For Industrial

Product Description:

Automatic Capping Machine Product Overview

The Automatic Capping Machine is a high-speed and efficient product designed for use in various industries, including food, beverage, commodity, and chemical. With a qualified rate of no less than 99.8% and a pass rate of no less than 99.5%, this capping machine is the perfect solution for your packaging needs.

Equipped with advanced technology, the Automatic Capping Machine is fully automatic, eliminating the need for manual capping and reducing the risk of human error. This not only ensures a higher capping success rate but also increases production efficiency.

The high-speed capping function of this machine allows for a seamless and continuous capping process, saving time and increasing productivity. With its precise and reliable performance, this capping machine is able to cap a wide range of bottle sizes and shapes, making it suitable for various packaging needs.

What sets the Automatic Capping Machine apart is its compatibility with filling machines, allowing for a seamless integration into your production line. This programmer feature ensures a smooth and efficient capping process, saving time and resources.

As a testament to its quality and durability, the Automatic Capping Machine comes with a 1-year warranty. This guarantees that the machine will continue to perform at its best, providing you with a reliable and efficient capping solution for your packaging needs.

Choose the Automatic Capping Machine for a high-speed, efficient, and reliable capping solution for your business. Say goodbye to manual capping and hello to a more efficient and seamless capping process with this advanced capping machine.

Features:

Product Name: Automatic Capping Machine

Power Consumption: 1.5KW

Advantage: Multi-Functional

Keyword: Barrel Capping Machine

Machine Frame: SS304

Programmer: Share With Filling Machine

Key Features:

Rotary capping machine design

High speed and efficient operation

Multi-functional capabilities

Compatible with barrel capping

Constructed with SS304 machine frame for durability

Shares programming with filling machine for seamless integration

Technical Parameters:

Technical Parameters	Description
Advantage	Multi-Functional
Qualified Rate	≥99.8%
Capping Type	Rotary Type
Machine Frame	SS304 Stainless Steel
Keyword	Barrel Capping Machine
Applicable Bottle	100ml-1000ml Bottle
Application	Food, Beverage, Commodity, Chemical
Power Consumption	1.5KW
Programmer	Share With Filling Machine
Warranty	1 Year
Key Features	High Speed, Stable Performance, Stainless Steel Construction, Multi-Functional, Wide Range of Application, Low Power Consumption, Easy Maintenance

Applications:

Automatic Capping Machine - TOM

The Automatic Capping Machine from TOM is a high-speed, automatic capping machine that is versatile and efficient. With its stable performance and precision, it is perfect for a variety of industries and applications.

Our capping machine is designed and manufactured in Changzhou City, ensuring top quality and reliability. It is certified with CE and ISO-9001, meeting international standards for safety and quality. With a minimum order quantity of only 1 set, it is a perfect investment for small and large businesses alike.

The capping machine is the perfect solution for capping various types of containers, such as barrels, bottles, jars, and more. It is suitable for a wide range of industries, including food and beverage, pharmaceuticals, cosmetics, and chemical products.

High Speed and Automatic

The TOM capping machine is a rotary type, ensuring high speed and efficiency. It can cap up to 100 containers per minute, making it ideal for high-volume production. The automatic function eliminates the need for manual labor, saving time and effort for your business.

Stable Performance and Precision

Our capping machine is designed with stability and precision in mind. It can cap containers of different sizes and shapes with ease, ensuring consistent and accurate capping every time. This helps to improve the overall quality of your products and increase customer satisfaction.

Durable and Safe

Made with high-quality materials and advanced technology, the TOM capping machine is built to last. It can withstand heavy use and is resistant to wear and tear, ensuring long-term durability. It is also equipped with safety features to prevent accidents and ensure the safety of your employees.

Efficient and Versatile

The TOM capping machine is designed to improve the efficiency of your production process. It is capable of capping various types of containers, making it a versatile solution for your business. It can also be easily integrated into existing production lines, saving you time and resources.

Easy Operation

Our capping machine is designed for easy operation, making it suitable for both experienced operators and those new to the industry. It is equipped with a user-friendly interface and can be easily adjusted to meet the specific needs of your production line.

Warranty and Support

We stand behind the quality of our products and offer a 1-year warranty for the TOM capping machine. Our team of experts is also available to provide technical support and assistance whenever needed.

Get Your TOM Capping Machine Today

With a pass rate of $\geq 99.5\%$ and a qualified rate of $\geq 99.8\%$, the TOM capping machine is a reliable and efficient solution for your capping needs. Contact us today to learn more about our products and get your own TOM capping machine at a price range of \$10000-\$100000.

Packing and Shipping:

Packaging and Shipping for Automatic Capping Machine

Packaging:

Our Automatic Capping Machine is carefully packaged to ensure safe delivery and protection during transportation. Each component is securely wrapped and placed in a sturdy wooden crate to prevent any damage.

Shipping:

We offer various shipping options to meet your specific needs and requirements. Our Automatic Capping Machine can be shipped via air, sea, or land transport. We work closely with reliable and efficient shipping companies to ensure timely and secure delivery of your order. For international orders, we provide all necessary documentation and handle customs clearance to make the process as smooth as possible for our customers.

Once your order is shipped, we will provide you with a tracking number so you can easily track the progress of your shipment.
