

## Precision Servo Motor Driven Edible Oil Filling Machine Automatic

Our Product Introduction

for more products please visit us on [tom-packs.com](http://tom-packs.com)

### Basic Information

- Place of Origin: China
- Brand Name: TOM
- Model Number: DGP-Z

### Product Specification

- Driven Type: Servo Motor
- Control System: PLC
- Showroom Location: Changzhou City, Jiangsu Province, China
- Filling Precision:  $\pm 2g(500g)$
- Filling Material: Edible Oil
- Machine Brand: TOM
- Filling Accuracy:  $\pm 0.5\%$
- Weight Of Machine: 1250kg
- Highlight: Servo Motor Edible Oil Filling Machine,  
Precision Edible Oil Filling Machine,  
Precision automatic edible oil filling machine

### Product Description:

The Edible Oil Filling Machine is built to handle liquid materials, making it perfect for filling various types of edible oils. Whether you need to package palm oil, olive oil, or other liquid food products, this machine has got you covered. Its design ensures that your product is filled efficiently and accurately, minimizing waste and maximizing your output.

One of the standout features of this machine is its compatibility with plastic screw caps. This makes it easy to package your product securely, without the need for additional equipment or materials. Additionally, the machine is built to handle high volumes of liquid, making it an ideal option for businesses with high production demands.

With its automatic operation and servo motor technology, the Edible Oil Filling Machine is an efficient and reliable option for your filling needs. Whether you're packaging palm oil, olive oil, or other liquid food products, this machine is designed to help you get the job done quickly and accurately.

### Features:

Product Name: Edible Oil Filling Machine

Filling Way: By Piston And Servo Motor

Filling Material: Edible Oil

Package: Wooden Case

Filling Accuracy:  $\pm 0.5\%$

Driven Type: Servo Motor

This machine is perfect for olive oil packing and corn oil filling line. It is also suitable for oil filling capping.

### Technical Parameters:

Filling Material	Edible Oil
Showroom Location	Changzhou City, Jiangsu Province, China
Operation	Automatic
Filling Precision	$\pm 2g$ (500g)
Machine Brand	TOM
Filling Way	By Piston And Servo Motor
Filling Accuracy	$\pm 0.5\%$
Control	Servo Motor Control Filling Volume
Suitable Cap	Plastic Screw Cap
Control System	PLC

### Applications:

For those in the food industry, the TOM DGP-Z is the perfect solution for a corn oil filling line. Its precise filling accuracy ensures that each bottle will have the exact amount of oil, reducing waste and increasing efficiency. And with its servo motor driven type, you can be sure that the machine will keep up with your production demands.

For those in the olive oil packing industry, the TOM DGP-Z is the perfect choice for oil filling capping. Its compatibility with plastic screw caps ensures that your product will be securely sealed and ready for sale. Plus, with its showroom location in Changzhou City, Jiangsu Province, China, you can easily see the machine in action and discuss any specific needs you may have.

Overall, the TOM DGP-Z Edible Oil Filling Machine is a versatile and reliable choice for any business in the edible oil industry. Its precision and efficiency will save you time and money, while ensuring that your product is of the highest quality for your customers.

### Customization:

Brand Name: TOM

Model Number: DGP-Z

Place of Origin: China

Package: Wooden Case

Control System: PLC

Filling Accuracy:  $\pm 0.5\%$

Bottle Size: 50ml-1L Or 1-5L

Control: Servo Motor Control Filling Volume

We offer product customization services for our TOM DGP-Z Edible Oil Filling Machine to meet your specific needs. Our machine can be customized to handle different types of oils such as palm oil and corn oil for your oil filling line. Contact us to discuss your requirements and we will work with you to provide a tailored solution.

### Support and Services:

The Edible Oil Filling Machine is a high-tech product designed to accurately fill and package edible oils. Our technical support team is available to assist with any questions or issues that may arise during installation, operation, or maintenance of the machine. We offer a range of services to ensure optimal performance and longevity of the machine, including:

[On-site installation and training](#)

[Regular maintenance and calibration checks](#)

[Replacement parts and repairs](#)

[24/7 remote technical support](#)

We understand the importance of reliable and efficient performance for your business, which is why we are committed to providing exceptional technical support and services for our Edible Oil Filling Machine.

### **Packing and Shipping:**

The Edible Oil Filling Machine is carefully packaged in a sturdy wooden crate to ensure safe transport. The machine is secured in place with foam padding and shrink-wrapped to prevent any movement during shipping. The crate is labeled with clear instructions for handling and includes all necessary documentation.

Shipping:

We offer worldwide shipping for our Edible Oil Filling Machine. Shipping costs vary depending on the destination and shipping method chosen. We use reputable and reliable shipping carriers to ensure prompt and safe delivery. Once the order is placed, we will provide the tracking information so that customers can track their shipment in real-time.
