Basic Information

- Place of Origin: China
- Brand Name: TOM
- Model Number: DGP-Z

Product Specification

- Filling Material: Edible Oil
- Weight Of Machine: 1250kg
- Control System: PLC
- Bottle Size: 50ml-1L Or 1-5L
- Filling Way: By Piston And Servo Motor
- Filling Precision: $\pm 2g(500g)$
- Control: Servo Motor Control Filling Volume
- Material Type: Liquid
- Highlight: **Liquid automatic edible oil filling machine, high accuracy edible oil filling machine, Liquid edible oil filling line**

Product Description:

The TOM brand is known for its high-quality machines and this Edible Oil Filling Machine is no exception. It is designed to work seamlessly with plastic screw caps, making it the ideal choice for oil filling capping. With its automatic operation, this machine is easy to use and highly efficient. It is perfect for businesses of all sizes, from small-scale operations to large factories. Don't waste any more time or effort manually filling your edible oil products. Upgrade to the TOM Edible Oil Filling Machine and experience the benefits of precise, efficient, and automatic filling for your business.

Features:

Product Name: Edible Oil Filling Machine

Material Type: Liquid

Machine Brand: TOM

Control: Servo Motor Control Filling Volume

Filling Precision: $\pm 2g(500g)$

Filling Way: By Piston And Servo Motor

Application: Oil filling capping, Edible oil filling, Palm oil filling

Technical Parameters:

Operation	Automatic
Driven Type	Servo Motor
Package	Wooden Case
Control	Servo Motor Control Filling Volume
Material Type	Liquid
Filling Accuracy	$\pm 0.5\%$
Weight Of Machine	1250kg
Showroom Location	Changzhou City,jiangsu Province,China
Filling Precision	$\pm 2g(500g)$
Filling Way	By Piston And Servo Motor

This Edible Oil Filling Machine is suitable for corn oil filling line, olive oil packing, and oil filling capping.

Applications:

One of the main benefits of the TOM DGP-Z Edible Oil Filling Machine is its ability to accurately fill containers with edible oils, such as olive oil. The filling precision of $\pm 2g$ for 500g of material ensures that each container is filled with the exact amount of oil required. This makes it an ideal choice for businesses that require consistent and accurate filling for their products.

The machine operates automatically, which means that it can fill containers quickly and efficiently without the need for manual labor. This not only saves time but also reduces the risk of errors and inconsistencies. The filling way is by piston and servo motor, which ensures that the filling process is smooth and consistent.

The TOM DGP-Z Edible Oil Filling Machine is designed to work with liquid materials, making it perfect for businesses that need to fill containers with different types of edible oils. Whether you need to fill containers with olive oil, vegetable oil, or any other type of edible oil, this machine is an excellent choice.

Overall, the TOM DGP-Z Edible Oil Filling Machine is a high-quality product that is perfect for businesses that need to fill containers with edible oils. Its precision, efficiency, and ease of use make it an ideal choice for businesses that want to improve their filling processes and increase their productivity.

Customization:

Our machine is compatible with plastic screw caps and has a weight of 1250kg. It operates automatically, making olive oil packing a breeze. You can also choose to add a capping function to complete your oil filling line.

Our showroom is located in Changzhou City, Jiangsu Province, China, where you can see our machine in action. Contact us today to discuss your specific requirements and let us help you customize your oil filling machine to fit your needs.

Support and Services:

The Edible Oil Filling Machine is designed to accurately fill containers with edible oil at high speeds. It is equipped with advanced technology to ensure precise filling while minimizing product waste. The machine is easy to operate and maintain, with user-friendly controls and a durable construction. Technical support and services offered for this product include:

Installation and setup assistance

Training on proper operation and maintenance

24/7 technical support via phone or email

Regular maintenance and calibration to ensure optimal performance

Replacement parts and repairs as needed

Our team of experienced technicians is dedicated to providing excellent customer service and support to ensure your Edible Oil Filling Machine operates at maximum efficiency.

Packing and Shipping:

Product Packaging:

The Edible Oil Filling Machine is packaged in a sturdy wooden crate to ensure its safety during transportation. The machine is secured with foam padding to prevent any damage during the shipping process. The crate is labeled with the product name, model number, and company logo for easy identification.

Shipping:

We offer worldwide shipping for the Edible Oil Filling Machine. The product is shipped via sea or air freight, depending on the customer's preference and location. Our team carefully handles the shipping process to ensure timely delivery and safe arrival of the product at the customer's destination. Once the product is shipped, the customer will receive a tracking number to track the status of their shipment.
