Basic Information

- Place of Origin: China
- Brand Name: TOM
- Model Number: DGP-Z

Product Specification

- Weight Of Machine: 1250kg
- Material Type: Liquid
- Machine Brand: TOM
- Driven Type: Servo Motor
- Filling Material: Edible Oil
- Showroom Location: Changzhou City,jiangsu Province,China
- Filling Precision: $\pm 2g(500g)$
- Bottle Size: 50ml-1L Or 1-5L
- Highlight: **edible oil Liquid filling machine,
high efficiency edible oil filling machine,
Liquid Edible Oil Filling Machine**

Product Description:

The machine is made from high-quality materials and weighs approximately 1250kg, making it sturdy and durable. It is designed to operate efficiently and accurately, ensuring that each bottle is filled with the correct amount of oil, minimizing wastage and maximizing productivity.

The Edible Oil Filling Machine is ideal for small and large-scale production facilities. It is fully automated, which means that it can operate without the need for manual intervention, allowing operators to focus on other tasks. The machine is easy to operate and maintain, making it an ideal choice for businesses looking to streamline their production processes.

The machine is equipped with a range of features that make it highly efficient and reliable. It has a high-speed filling rate, which ensures that production targets are met quickly and efficiently. It also has a high degree of accuracy, ensuring that each bottle is filled with the correct amount of oil.

The Edible Oil Filling Machine is also versatile, making it suitable for a wide range of edible oils. Whether you are filling palm oil, corn oil, or olive oil, this machine can handle it all. It is also designed to work with a range of bottle shapes and sizes, making it a flexible solution for businesses with varying production requirements.

In conclusion, if you are looking for a reliable and efficient solution for your edible oil filling needs, the Edible Oil Filling Machine by TOM is an excellent choice. With its high-speed filling rate, accuracy, and versatility, this machine is designed to meet the needs of businesses of all sizes. So why wait? Invest in the Edible Oil Filling Machine today and streamline your production processes for maximum efficiency and profitability.

Features:

Product Name: Edible Oil Filling Machine

Showroom Location: Changzhou City, Jiangsu Province, China

Package: Wooden Case

Bottle Size: 50ml-1L Or 1-5L

Control System: PLC

Control: Servo Motor Control Filling Volume

Features:

Designed for Olive oil packing

Integrated oil filling capping system

Complete oil filling line

Technical Parameters:

Control	Servo Motor Control Filling Volume
Filling Material	Edible Oil
Control System	PLC
Filling Accuracy	±0.5%
Machine Brand	TOM
Operation	Automatic
Package	Wooden Case
Suitable Cap	Plastic Screw Cap
Filling Way	By Piston And Servo Motor
Bottle Size	50ml-1L Or 1-5L

Applications:

The Edible Oil Filling Machine can be used in various occasions and scenarios, including but not limited to:

Food processing plants

Olive oil factories

Bottling plants

Small to medium-sized businesses

Home-based businesses

Online stores

The machine can handle various types of liquid materials, including Edible Oil, Olive Oil, and other similar products. Its filling accuracy ensures that there is minimal wastage, and the filling process is efficient and reliable. The machine is capable of filling up to 5000 bottles per hour, making it a great option for businesses with high production needs.

The Edible Oil Filling Machine is equipped with advanced technology that ensures a smooth and efficient filling process. Its user-friendly interface makes it easy to operate, and the machine is built to last. Its sturdy construction ensures that it can handle the rigors of daily use and maintain its accuracy over time.

In conclusion, if you are in the market for a high-quality Edible Oil Filling Machine, TOM's DGP-Z model is the perfect choice. Its precision, durability, and efficiency make it the ideal option for Olive Oil packing, and it can be used in a variety of occasions and scenarios. So why wait? Get your TOM Edible Oil Filling Machine today and start filling those bottles with ease!

Customization:

The machine comes with a sturdy wooden case for safe transport and storage. As a TOM product, you can trust in the brand's reputation for quality and reliability.

Choose from a range of customization services, including oil filling capping, to create the perfect solution for your business. Get started today and optimize your edible oil filling process with the TOM DGP-Z Edible Oil Filling Machine.

Support and Services:

The Edible Oil Filling Machine is a state-of-the-art equipment designed to fill edible oil into bottles or containers with high precision and accuracy. It is equipped with advanced technology to ensure that the filling process is hygienic, efficient and reliable. The machine is easy to operate and maintain, and it comes with a user-friendly interface that allows users to set the filling parameters and monitor the filling process in real-time.

Our technical support team is available to provide assistance with installation, commissioning, and training on how to use the machine. We also offer regular maintenance and repair services to ensure that the machine operates optimally throughout its lifespan. In addition, we provide spare parts and accessories to ensure that the machine is always running at its best.

If you have any questions or concerns about the Edible Oil Filling Machine, please do not hesitate to contact our technical support team. We are dedicated to providing our customers with the best possible service and support.

Packing and Shipping:

Product Packaging:

The Edible Oil Filling Machine will be packed in a sturdy wooden crate to ensure safe transportation.

The crate will be sealed and clearly labeled with the product name, specifications, and handling instructions.

Inside the crate, the machine will be securely fastened with foam padding to prevent any damage during transit.

Additional accessories and parts will be packed separately in sealed bags and labeled for easy identification.

Shipping:

The Edible Oil Filling Machine will be shipped via sea or air, depending on the customer's preference and urgency.

The shipping arrangements will be made by our team and the customer will be informed of the estimated delivery date and time.

Before shipment, the machine will undergo a final inspection to ensure that it meets the required quality standards.

Once the machine is shipped, the customer will receive a tracking number to monitor the progress of the delivery.
