

Bottle Diameter 20-100mm .Automatic Labeling Machine with 800kg and Labeling Accuracy $\pm 1\text{mm}$

Our Product Introduction

for more products please visit us on tom-packs.com

Basic Information

- Place of Origin: China
- Brand Name: TOM
- Certification: CE
- Model Number: XJY-660E
- Minimum Order Quantity: 1
- Price: 18000-20000
- Packaging Details: seaworthy packing
- Delivery Time: 50 working days
- Payment Terms: 30% as deposit, 70% before shipment

Product Specification

- Guarantee: 1 Year
- Type: Labeling Machine
- Labeling Accuracy: $\pm 1\text{mm}$
- Warranty: 1 Year
- Max Label Width: 100mm
- Bottle Diameter: 20-100mm
- Power Consumption: 1.5kW
- Labeling Speed: 2000-3000bph

Product Description:

The Automatic Labeling Machine is a high-quality labeling machine designed to efficiently label various types of products. With a weight of 800kg, this labeling machine is sturdy and durable, ensuring long-lasting performance in industrial settings.

One of the key features of this labeling machine is its versatility in labeling different kinds of bottles and containers. From round bottles to square bottles, this machine can accurately apply labels to various shapes and sizes with precision and speed.

Equipped with advanced technology, the Automatic Labeling Machine has a Label Inner Diameter of $\phi 76\text{mm}$, allowing for smooth and consistent label application. This feature ensures that labels are securely attached to the products, enhancing the overall packaging quality.

When it comes to efficiency, the Automatic Labeling Machine excels in performance. With a Max Bottle Diameter of 150mm, this machine can handle a wide range of bottle sizes, making it suitable for diverse labeling needs. The labeling speed of 2000-3000 bottles per hour ensures fast and efficient labeling, increasing productivity in manufacturing processes.

Whether you require labeling on one side or two sides of the products, this machine offers flexibility in customization. The square bottle labeling capability of this machine makes it ideal for labeling products with unique shapes, providing a professional and uniform appearance.

In addition to its high-speed labeling capabilities, the Automatic Labeling Machine is easy to operate and maintain. Its user-friendly interface allows for quick setup and adjustment, saving time and effort during production runs. The durable construction of the machine ensures reliability and consistent performance, minimizing downtime and maximizing productivity.

Overall, the Automatic Labeling Machine is a reliable and efficient solution for labeling requirements in various industries. With its versatile labeling capabilities, high-speed performance, and user-friendly design, this machine is a valuable asset for businesses looking to streamline their labeling processes and enhance product packaging.

Features:

Product Name: Automatic Labeling Machine

Weight: 800kg

Gas Source: 0.6MPa Clean And Stable Gas Source

Power Consumption: 1.5kW

Max Bottle Diameter: 150mm

Type: Labeling Machine

Technical Parameters:

Bottle Diameter	20-100mm
Weight	800kg
Labeling Accuracy	$\pm 1\text{mm}$
Gas Source	0.6MPa Clean And Stable Gas Source
Labeling Speed	2000-3000bph
Max Bottle Diameter	150mm
Max Label Width	100mm
Delivery Port	Shanghai, China
Type	Labeling Machine
Guarantee	1 Year

Applications:

The TOM XJY-660E Automatic Labeling Machine is a versatile and efficient labeling solution suitable for a wide range of product application occasions and scenarios. With its origins in China and CE certification, this high-quality machine is designed to meet the labeling needs of various industries.

One of the key features of the TOM XJY-660E Automatic Labeling Machine is its capability to label square bottles with precision. The machine's labeling accuracy of $\pm 1\text{mm}$ ensures that labels are applied correctly and consistently on square bottles of various sizes.

Whether you are in the pharmaceutical, food and beverage, cosmetic, or other industries that require square bottle labeling, this machine is the perfect choice. Its labeling speed of 2000-3000 bottles per hour makes it ideal for high-volume production environments.

With a maximum label width of 100mm, the TOM XJY-660E Automatic Labeling Machine can accommodate a wide range of label sizes and designs. The machine's power consumption of 1.5kW ensures energy efficiency, making it cost-effective to operate.

When it comes to ordering, the TOM XJY-660E Automatic Labeling Machine has a minimum order quantity of 1 unit, making it accessible for businesses of all sizes. The price range of \$18000-\$20000 offers great value for the features and performance it provides.

For your convenience, the machine comes with seaworthy packing for secure transportation and has a delivery time of 50 working days. Payment terms include a 30% deposit with the remaining 70% due before shipment, giving you flexibility in managing your budget.

Overall, the TOM XJY-660E Automatic Labeling Machine is a reliable and efficient labeling solution for square bottle labeling applications. Its high labeling speed, accuracy, and versatility make it an essential tool for businesses looking to streamline their labeling processes.

Support and Services:

The Product Technical Support and Services for the Automatic Labeling Machine include:

- Installation and setup guidance

- Troubleshooting assistance
- Software updates and maintenance
- Operator training
- Repair and replacement services
- User manuals and documentation
