

800kg Capacity Square Bottle Labeling for Bottles up to 150mm in Diameter

Our Product Introduction

for more products please visit us on tom-packs.com

Basic Information

- Place of Origin: China
- Brand Name: TOM
- Certification: CE
- Model Number: XJY-660E
- Minimum Order Quantity: 1
- Price: 18000-20000
- Packaging Details: seaworthy packing
- Delivery Time: 50 working days
- Payment Terms: 30% as deposit, 70% before shipment

Product Specification

- Max Label Width: 100mm
- Power Consumption: 1.5kW
- Warranty: 1 Year
- Labeling Speed: 2000-3000bph
- Bottle Diameter: 20-100mm
- Weight: 800kg
- Max Bottle Diameter: 150mm
- Delivery Port: Shanghai, China

Product Description:

The Automatic Labeling Machine is a high-quality and efficient labeling solution designed for various industries. With a maximum bottle diameter of 150mm, this machine is suitable for labeling a wide range of bottle sizes. Its advanced technology ensures precise labeling accuracy of $\pm 1\text{mm}$, making it ideal for applications that require consistent and professional labeling results.

One of the standout features of this Automatic Labeling Machine is its versatility in handling different labeling requirements. It is capable of two sides labeling, providing a comprehensive labeling solution for products that require labeling on both sides of the bottle. This flexibility makes it a valuable asset for businesses dealing with square bottle labeling or any other complex labeling needs.

Operating at a labeling speed of 2000-3000 bottles per hour, this machine offers fast and efficient labeling performance, helping businesses streamline their production processes and meet high-volume labeling demands. Whether you are labeling bottles, jars, or containers, this machine ensures quick and reliable labeling results, enhancing productivity and efficiency in your operations.

With a power consumption of 1.5kW, the Automatic Labeling Machine is designed to be energy-efficient, reducing operational costs and environmental impact. Its reliable performance and low power consumption make it a sustainable labeling solution for businesses looking to optimize their production processes while minimizing energy usage.

Located in Shanghai, China, the delivery port for this Automatic Labeling Machine offers convenient access to global shipping routes, ensuring timely delivery to customers worldwide. Whether you are based locally in China or require international shipping, the strategic location of the delivery port enables efficient logistics and smooth handling of your equipment.

In conclusion, the Automatic Labeling Machine is a versatile, high-speed, and precise labeling solution that caters to a wide range of labeling needs. With its two sides labeling capability, square bottle labeling compatibility, and efficient performance, this machine is a valuable asset for businesses seeking reliable and professional labeling solutions. Invest in the Automatic Labeling Machine to enhance your production efficiency, meet labeling requirements, and elevate the quality of your products.

Features:

Product Name: Automatic Labeling Machine

Bottle Diameter: 20-100mm

Warranty: 1 Year

Power Consumption: 1.5kW

Type: Labeling Machine

Delivery Port: Shanghai, China

Technical Parameters:

Labeling Speed	2000-3000bph
Bottle Diameter	20-100mm
Delivery Port	Shanghai, China
Max Label Width	100mm
Power Consumption	1.5kW
Weight	800kg
Max Bottle Diameter	150mm
Warranty	1 Year
Type	Labeling Machine
Guarantee	1 Year

Applications:

The TOM XJY-660E Automatic Labeling Machine, originating from China, is a versatile and efficient labeling solution suitable for a variety of product application occasions and scenarios. With CE certification and a minimum order quantity of 1, this high-quality machine is designed to meet the labeling needs of diverse industries.

One of the key features of the TOM XJY-660E Automatic Labeling Machine is its ability to perform two sides labeling, making it ideal for products that require labeling on both sides for enhanced visibility and information display. This functionality makes it suitable for applications where labeling accuracy and consistency are paramount.

Whether used in a manufacturing facility, packaging plant, or distribution center, this labeling machine can handle a wide range of bottle sizes, with a maximum diameter of 150mm. The machine operates with a gas source of 0.6MPa clean and stable gas, ensuring reliable performance and consistent labeling results.

When it comes to packaging and delivery, the TOM XJY-660E Automatic Labeling Machine is carefully packed for seaworthy transportation to ensure its safe arrival at the desired location. The delivery time for this machine is 50 working days, with payment terms of 30% as a deposit and 70% before shipment.

Businesses looking for a reliable and efficient labeling solution can trust the TOM XJY-660E Automatic Labeling Machine to meet their needs. With its advanced features, high-quality construction, and competitive price range of 18000-20000, this machine is a cost-effective investment for enhancing labeling processes.

For convenient access, the delivery port for the TOM XJY-660E Automatic Labeling Machine is Shanghai, China. The machine is designed for label inner diameter $\phi 76\text{mm}$, catering to a wide range of labeling requirements across different industries.

Support and Services:

The Automatic Labeling Machine product comes with comprehensive Product Technical Support and Services to ensure that customers have a seamless experience with their equipment. Our support team is available to assist with any technical issues, troubleshooting, and product inquiries.

Our services also include maintenance and repair options to keep your Automatic Labeling Machine functioning at its best. Additionally, we offer training sessions to help customers maximize the capabilities of the machine and optimize their labeling processes.
