

1 Year Guarantee Two Sides Labeling for Bottles 20-100mm Diameter Double Your Labeling Efficiency

Our Product Introduction

for more products please visit us on tom-packs.com

Basic Information

- Place of Origin: China
- Brand Name: TOM
- Certification: CE
- Model Number: XJY-660E
- Minimum Order Quantity: 1
- Price: 18000-20000
- Packaging Details: seaworthy packing
- Delivery Time: 50 working days
- Payment Terms: 30% as deposit, 70% before shipment

Product Specification

- Type: Labeling Machine
- Gas Source: 0.6MPa Clean And Stable Gas Source
- Guarantee: 1 Year
- Weight: 800kg
- Labeling Speed: 2000-3000bph
- Max Label Width: 100mm
- Labeling Accuracy: $\pm 1\text{mm}$
- Max Bottle Diameter: 150mm

Product Description:

The .Automatic Labeling Machine is a high-speed and efficient labeling machine designed for square bottle labeling applications. With a labeling speed of 2000-3000 bottles per hour, this machine is perfect for high-volume production lines.

Weighing in at 800kg, the .Automatic Labeling Machine is a sturdy and durable piece of equipment that is built to last. Its robust construction ensures stability and reliability during operation, making it suitable for continuous use in industrial settings.

When it comes to label application, the .Automatic Labeling Machine is equipped with a label inner diameter of $\phi 76\text{mm}$. This feature allows for precise and accurate label placement on square bottles, ensuring a professional and polished finish on every product.

In terms of gas source requirements, the .Automatic Labeling Machine needs a 0.6MPa clean and stable gas source to operate efficiently. This ensures consistent performance and reliable labeling results, minimizing downtime and maximizing productivity.

Power consumption is another key consideration when choosing a labeling machine, and the .Automatic Labeling Machine excels in this area with a power consumption of 1.5kW. This energy-efficient design helps reduce operating costs and environmental impact, making it a sustainable choice for businesses looking to streamline their labeling processes.

Overall, the .Automatic Labeling Machine is a top-of-the-line solution for square bottle labeling applications. Its high-speed performance, sturdy construction, precise label application, reliable gas source requirements, and energy-efficient operation make it a versatile and cost-effective choice for businesses looking to optimize their labeling operations.

Features:

Product Name: .Automatic Labeling Machine

Bottle Diameter: 20-100mm

Power Consumption: 1.5kW

Delivery Port: Shanghai, China

Warranty: 1 Year

Labeling Speed: 2000-3000bph

Features:

Two sides labeling capability

Efficient labeling machine

Technical Parameters:

Delivery Port	Shanghai, China
Label Inner Diameter	$\phi 76\text{mm}$
Guarantee	1 Year
Warranty	1 Year
Bottle Diameter	20-100mm
Max Label Width	100mm
Labeling Speed	2000-3000bph
Gas Source	0.6MPa Clean And Stable Gas Source
Labeling Accuracy	$\pm 1\text{mm}$
Max Bottle Diameter	150mm

Applications:

The TOM XJY-660E Automatic Labeling Machine is a versatile and efficient labeling solution ideal for a wide range of product application occasions and scenarios. With its precise labeling accuracy of $\pm 1\text{mm}$, this machine is perfect for labeling various products with different bottle diameters.

One of the key application scenarios for this labeling machine is in the beverage industry, where it can be used for labeling bottles with diameters ranging from 20mm to 100mm. Whether it's labeling water bottles, soda bottles, or glass bottles, the TOM XJY-660E can handle the task with ease.

Another important product application occasion for the TOM XJY-660E is in the pharmaceutical industry. This machine is suitable for labeling medicine bottles with precision and efficiency, ensuring compliance with regulatory requirements. The square bottle labeling feature of this machine makes it particularly well-suited for pharmaceutical products packaged in square bottles.

Furthermore, the TOM XJY-660E Automatic Labeling Machine is also widely used in the cosmetic industry for labeling various beauty products such as shampoo bottles, lotion bottles, and perfume bottles. Its versatility and adaptability make it a valuable asset for cosmetic manufacturers looking to enhance their packaging processes.

Whether you are a small business or a large manufacturing facility, the TOM XJY-660E Automatic Labeling Machine is a cost-effective solution with a minimum order quantity of 1. It is CE certified and offers a labeling accuracy of $\pm 1\text{mm}$, ensuring high-quality labeling results every time.

With a price range of \$18000-\$20000, flexible payment terms of 30% deposit and 70% before shipment, and a delivery time of 50 working days, this labeling machine offers great value for your investment. It comes with seaworthy packaging for secure transit and requires a clean and stable gas source of 0.6MPa for optimal performance.

For your convenience, the TOM XJY-660E Automatic Labeling Machine is delivered to you from Shanghai, China, ensuring timely delivery to your location. Whether you need to label square bottles, round bottles, or cylindrical containers, this machine is the perfect labeling solution for your business.

Support and Services:

The Automatic Labeling Machine product comes with comprehensive Product Technical Support and Services to ensure smooth operation and customer satisfaction. Our technical support team is available to assist with any inquiries, troubleshooting, or training needs related to the Automatic Labeling Machine. Additionally, we offer maintenance services, spare parts supply, and on-site assistance to address any issues that may arise during the use of the machine.
