

Full-Automatic Cap Capping Machine For Laundry Caps With High Speed And Low Price

Our Product Introduction

for more products please visit us on tom-packs.com

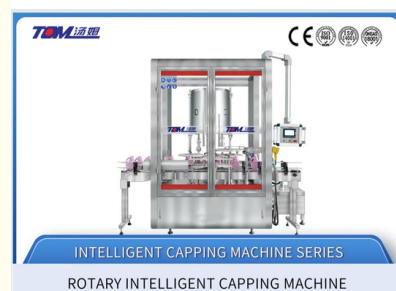

Basic Information

- Place of Origin: China
- Brand Name: TOM
- Certification: CE/ISO9001
- Model Number: XG-4E
- Minimum Order Quantity: 1 set
- Price: Negotiable
- Packaging Details: 2300 mm(L)*2000 mm(W)* 2500 mm(H)
- Delivery Time: 30 working days
- Payment Terms: L/C, T/T
- Supply Ability: 25 Sets Per Month

Product Specification

- Capping Head: 4
- Material: SUS 304
- Certification: ISO9001, CE, ISO, CE/ISO
- Applicable Industries: Laundry Caps
- Control System: PLC (Programmable Logic Controller) With Touchscreen Interface
- Speed: 3000bph

Product Description

Laundry Detergent Rotary Capping Machine

The Laundry Detergent Rotary Capping Machine is an automated solution designed to securely apply and tighten caps onto bottles containing liquid detergent and similar household products. Featuring a continuous rotary motion, this machine ensures high-speed, consistent, and reliable capping performance for medium- to large-scale production lines.

Key Features:

High Efficiency & Speed – Continuous rotary design supports rapid capping cycles without bottle jams.

Wide Cap Compatibility – Suitable for various cap types, including screw caps, flip-top caps, and special-shaped closures.

Precise Torque Control – Adjustable torque settings ensure secure closure while preventing damage to caps or bottles.

User-Friendly Interface – Touch-screen HMI for easy operation, quick parameter adjustments, and production monitoring.

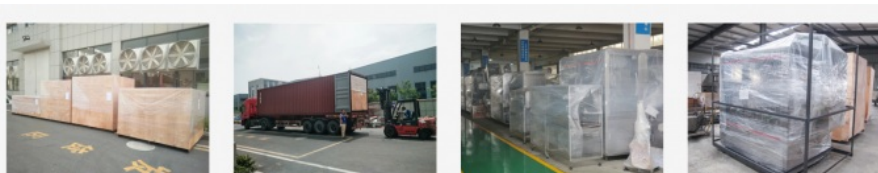

Hygienic & Durable Structure – Built with corrosion-resistant stainless steel to meet cleanliness requirements and extend machine life.

Integration Ready – Easily connects with filling machines, labeling systems, and conveyor lines for full automation.

Low Maintenance – Simplified mechanical structure for reduced downtime and easy servicing.

This machine is ideal for detergent, cleaning liquid, shampoo, and other household chemical packaging applications, helping manufacturers improve productivity, product consistency, and operational efficiency.
