Factory Made Hot Sale EC SC WP Fully Automatic Pesticide Packaging Line For Bag packing

Our Product Introduction

Basic Information

- Place of Origin: Made in China
- Brand Name: TOM
- Certification: CE
- Model Number: TOMSP001
- Minimum Order Quantity: 1 set
- Price: usd80,000
- Delivery Time: 50-80working days

Product Specification

- Highlight: **fully automatic pesticide packaging line**, **EC SC WP pesticide bag packing**, **factory made pesticide packaging machine**

Product Description

Annual Production of 3,000 Tons SP Explosion-Proof Production Line

In the batching section, precisely measured raw materials are added to the ribbon mixer through a negative-pressure feeding hopper for mixing. Simultaneously, liquid additives are evenly sprayed into the mixer via high-pressure nozzles. The initially mixed materials are then conveyed by a screw feeder to a disc feeder for temporary storage.

In the grinding section, the disc feeder supplies materials quantitatively to the airflow mill. When the particle size meets the standard, the materials are collected via a cyclone separator and dust collector.

In the transfer section, the ground materials are conveyed by a screw feeder to a twin-shaft mixer for further thorough blending. The final qualified materials are packaged using a packaging machine.

In the environmental protection section, dust generated throughout the production process is collected by an air extraction system and treated through environmental protection equipment before being discharged into the atmosphere.

Features of the Equipment

1. Achieves minimized floor space, shortest material/energy transmission paths, and maximized system integration.
2. Modular design shortens project timelines, reduces on-site uncertainties, and facilitates quick replacement and upgrades.
3. Incorporates advanced explosion-proof and flameless venting technologies to safeguard assets, ensure production continuity, and protect lives.
