No.99, Rulin Town, Jintan District, Changzhou City, Jiangsu Province, China.

150 acres, we boast a dedicated team of over 700 professionals. Combining the robust strength of state-owned enterprises with the dynamic spirit of private enterprise, we adhere to international standards and deliver European and American quality. As pioneers in one-stop smart factory solutions, we offer expertise across four artisanal segments: engineering design, intelligent filling lines, warehousing and logistics software engineering, and EPCM general contracting projects. Upholding the spirit of craftsmanship, we relentlessly pursue excellence to furnish our clients with top-tier products and services.

Company introduction

Jiangsu Tom Group stands as a trailblazer in the realm of intelligent filling equipment. Since our inception in 1998, we have devoted ourselves to the research, development, and production of cutting-edge solutions. Our expertise spans exquisite engineering design, next-generation intelligent filling lines, comprehensive warehousing and logistics software engineering, EPCM projects, and the creation of smart factories.

Tom's Mission:

Strive to Make Global Chemical Packaging Automation

Tom's vision:

Elevate our status as the go-to supplier for comprehensive global chemical packaging engineering solutions.

Tom's values:

We champion continuous innovation, uphold excellent quality, prioritize people-focused policies, and pursue common prosperity. Our harmonious ethos fosters win-win business benefits for all stakeholders.

Who are we?

As pioneers in the industry, we are the Global Agrochemical Intelligent Formulation Workshop Integrated Solution Service Provider. We are proud domestic production enterprises

that have successfully replaced imported intelligent filling lines with our superior solutions.

What we can do?

Our expertise lies in precision-driven engineering design tailored to meet diverse client needs.

We offer advanced Intelligent Filling Line solutions designed for efficiency and reliability. Our Warehouse Logistics Software Engineering ensures seamless operations and optimized inventory management. We specialize in EPCM general contracting, delivering comprehensive project management services.

With a steadfast focus, we have delivered comprehensive chemical filling services for over 26 years, consistently exceeding industry standards.
